Background

Under current law, any county may impose a transient occupancy tax at a maximum rate of two percent, upon the adoption of an ordinance, on hotels, motels, boarding houses, travel campgrounds, and other facilities offering guest rooms. The tax applies to rooms intended or suitable for dwelling and sleeping. Therefore, the tax does not apply to such rooms used for alternative purposes, such as banquet rooms and meeting rooms.

Proposal

This bill would authorize a qualified county to impose, after holding a public hearing, an additional transient occupancy tax not to exceed five percent of the amount of the charge for the occupancy of any room or space occupied at eligible historic lodging properties.

Under this bill, a "qualified county" that is eligible to impose a tax on "eligible historic lodging properties" would be a county in which at least 40 percent of the employment is in accommodations and food services, as set forth in the Quarterly Census of Employment and Wages for the second quarter of 2017, as published by the Virginia Employment Commission.

The bill would define an "eligible historic lodging property" as a structure (i) that contains 450 or more rooms for overnight lodging purposes, (ii) that is situated on one or more parcels of land exceeding 700 acres, and (iii) of which some or all portions of the structure were constructed prior to 1930.

The bill provides that Transient Occupancy Tax on eligible historic lodging properties may not permitted to exceed five percent of the amount of the charge for the occupancy of any room or space.

Further, the revenues collected from the additional tax would be designated solely as local funds to be used to incentivize other entities to invest in substantial rehabilitation, renovation, and expansion projects on eligible historic lodging properties that would enhance local economic development and tourism opportunities.

The effective date of this bill is not specified.
