4. **Title:** Department of Education; establishment of microcredential program.

5. **Summary:** Permits the Department of Education to establish a microcredential program for the purpose of permitting any public elementary or secondary school teacher who holds a renewable or provisional license or any individual who participates in any alternate route to licensure program to complete additional in-person or blended coursework and earn microcredentials in science, technology, engineering, and mathematics (STEM) endorsement areas, including computer science, for which there is a high need for additional qualified teachers. The bill requires the Department of Education to direct the Advisory Board on Teacher Education and Licensure to convene a workgroup including pertinent education stakeholders to determine how any microcredential awarded pursuant to any such program will be used to award add-on endorsements and certifications for teachers in such STEM endorsement areas. The bill provides certain conditions in which in-person coursework in a microcredential program not contributing to an endorsement is eligible for professional development points towards the renewal of a teaching license.
