5. Summary/Purpose:

As authorized by an amendment to Article X, Section 6 of the Constitution of Virginia that was adopted by the voters on November 6, 2018, which enables a locality to provide by ordinance a partial exemption from real property taxes for flooding abatement, mitigation, or resiliency efforts for improved real estate that is subject to recurrent flooding, this bill would provide that exemptions may only be granted for qualifying flood improvements. "Qualifying flood improvements" would be defined as improvements that do not increase the size of any impervious area and are made to qualifying structures or to land. "Qualifying structures" would be defined as structures that were completed prior to July 1, 2018 or were completed more than 10 years prior to the completion of the improvements. For improvements made to land, the improvements would be required to be made primarily for the benefit of one or more qualifying structures. No exemption would be authorized for any improvements made prior to July 1, 2018.

The locality would be granted the authority to (i) establish flood protection standards that qualifying flood improvements must meet in order to be eligible for the exemption; (ii) determine the amount of the exemption; (iii) set income or property value limitations on eligibility; (iv) provide that the exemption shall only last for a certain number of years; (v) determine, based upon flood risk, areas of the locality where the exemption may be claimed; and (vi) establish preferred actions for qualifying for the exemption, including living shorelines.

This bill would be effective July 1, 2019.
