

20106138D

HOUSE BILL NO. 516**AMENDMENT IN THE NATURE OF A SUBSTITUTE**(Proposed by the House Committee on Education
on January 20, 2020)

(Patrons Prior to Substitute—Delegates Bulova and McNamara [HB 112])

*A BILL to amend and reenact § 22.1-253.13:4 of the Code of Virginia, relating to high school graduation; certain requirements; dual enrollment; high-quality work-based learning experiences.***Be it enacted by the General Assembly of Virginia:****1. That § 22.1-253.13:4 of the Code of Virginia is amended and reenacted as follows:****§ 22.1-253.13:4. Standard 4. Student achievement and graduation requirements.**

A. Each local school board shall award diplomas to all secondary school students, including students who transfer from nonpublic schools or from home instruction, who meet the requirements prescribed by the Board of Education and meet such other requirements as may be prescribed by the local school board and approved by the Board of Education. Provisions shall be made to facilitate the transfer and appropriate grade placement of students from other public secondary schools, from nonpublic schools, or from home instruction as outlined in the standards for accreditation. The standards for accreditation shall include provisions relating to the completion of graduation requirements through Virtual Virginia. Further, reasonable accommodation to meet the requirements for diplomas shall be provided for otherwise qualified students with disabilities as needed.

In addition, each local school board may devise, vis-a-vis the award of diplomas to secondary school students, a mechanism for calculating class rankings that takes into consideration whether the student has taken a required class more than one time and has had any prior earned grade for such required class expunged.

Each local school board shall notify the parents of rising eleventh and twelfth grade students of (i) the requirements for graduation pursuant to the standards for accreditation and (ii) the requirements that have yet to be completed by the individual student.

B. Students identified as disabled who complete the requirements of their individualized education programs and meet certain requirements prescribed by the Board pursuant to regulations but do not meet the requirements for any named diploma shall be awarded Applied Studies diplomas by local school boards.

Each local school board shall notify the parent of such students with disabilities who have an individualized education program and who fail to meet the graduation requirements of the student's right to a free and appropriate education to age 21, inclusive, pursuant to Article 2 (§ 22.1-213 et seq.) of Chapter 13.

C. Students who have completed a prescribed course of study as defined by the local school board shall be awarded certificates of program completion by local school boards if they are not eligible to receive a Board of Education-approved diploma.

Each local school board shall provide notification of the right to a free public education for students who have not reached 20 years of age on or before August 1 of the school year, pursuant to Chapter 1 (§ 22.1-1 et seq.), to the parent of students who fail to graduate or who have failed to achieve graduation requirements as provided in the standards for accreditation. If such student who does not graduate or complete such requirements is a student for whom English is a second language, the local school board shall notify the parent of the student's opportunity for a free public education in accordance with § 22.1-5.

D. (From Acts 2016, cc. 720 & 750: The graduation requirements established by the Board of Education pursuant to the provisions of subdivisions D 1, 2, and 3 shall apply to each student who enrolls in high school as (i) a freshman after July 1, 2018; (ii) a sophomore after July 1, 2019; (iii) a junior after July 1, 2020; or (iv) a senior after July 1, 2021) In establishing graduation requirements, the Board shall:

1. Develop and implement, in consultation with stakeholders representing elementary and secondary education, higher education, and business and industry in the Commonwealth and including parents, policymakers, and community leaders in the Commonwealth, a Profile of a Virginia Graduate that identifies the knowledge and skills that students should attain during high school in order to be successful contributors to the economy of the Commonwealth, giving due consideration to critical thinking, creative thinking, collaboration, communication, and citizenship.

2. Emphasize the development of core skill sets in the early years of high school.

3. Establish multiple paths toward college and career readiness for students to follow in the later years of high school. Each such pathway shall include opportunities for internships, externships, and credentialing.

60 4. Provide for the selection of integrated learning courses meeting the Standards of Learning and
61 approved by the Board to satisfy graduation requirements, which shall include Standards of Learning
62 testing, as necessary.

63 5. Require students to complete at least one course in fine or performing arts or career and technical
64 education, one course in United States and Virginia history, and two sequential elective courses chosen
65 from a concentration of courses selected from a variety of options that may be planned to ensure the
66 completion of a focused sequence of elective courses that provides a foundation for further education or
67 training or preparation for employment.

68 6. Require that students ~~either~~ (i) complete an Advanced Placement, honors, ~~or~~ International
69 Baccalaureate, *or dual enrollment course* ~~or~~; (ii) *complete a high-quality work-based learning*
70 *experience, as defined by the Board;* *or* (iii) earn a career and technical education credential that has
71 been approved by the Board, except when a career and technical education credential in a particular
72 subject area is not readily available or appropriate or does not adequately measure student competency,
73 in which case the student shall receive satisfactory competency-based instruction in the subject area to
74 earn credit. The career and technical education credential, when required, could include the successful
75 completion of an industry certification, a state licensure examination, a national occupational competency
76 assessment, the Armed Services Vocational Aptitude Battery, or the Virginia workplace readiness skills
77 assessment. The Department of Education shall develop, maintain, and make available to each local
78 school board a catalogue of the testing accommodations available to English language learners for each
79 such certification, examination, assessment, and battery. Each local school board shall develop and
80 implement policies to require each high school principal or his designee to notify each English language
81 learner of the availability of such testing accommodations prior to the student's participation in any such
82 certification, examination, assessment, or battery.

83 7. Beginning with first-time ninth grade students in the 2016-2017 school year, require students to be
84 trained in emergency first aid, cardiopulmonary resuscitation, and the use of automated external
85 defibrillators, including hands-on practice of the skills necessary to perform cardiopulmonary
86 resuscitation.

87 8. Make provision in its regulations for students with disabilities to earn a diploma.

88 9. Require students to complete one virtual course, which may be a noncredit-bearing course.

89 10. Provide that students who complete elective classes into which the Standards of Learning for any
90 required course have been integrated and achieve a passing score on the relevant Standards of Learning
91 test for the relevant required course receive credit for such elective class.

92 11. Establish a procedure to facilitate the acceleration of students that allows qualified students, with
93 the recommendation of the division superintendent, without completing the 140-hour class, to obtain
94 credit for such class upon demonstrating mastery of the course content and objectives and receiving a
95 passing score on the relevant Standards of Learning assessment. Nothing in this section shall preclude
96 relevant school division personnel from enforcing compulsory attendance in public schools.

97 12. Provide for the award of credit for passing scores on industry certifications, state licensure
98 examinations, and national occupational competency assessments approved by the Board of Education.

99 School boards shall report annually to the Board of Education the number of Board-approved
100 industry certifications obtained, state licensure examinations passed, national occupational competency
101 assessments passed, Armed Services Vocational Aptitude Battery assessments passed, and Virginia
102 workplace readiness skills assessments passed, and the number of career and technical education
103 completers who graduated. These numbers shall be reported as separate categories on the School
104 Performance Report Card.

105 For the purposes of this subdivision, "career and technical education completer" means a student who
106 has met the requirements for a career and technical concentration or specialization and all requirements
107 for high school graduation or an approved alternative education program.

108 In addition, the Board may:

109 a. For the purpose of awarding credit, approve the use of additional or substitute tests for the
110 correlated Standards of Learning assessment, such as academic achievement tests, industry certifications
111 or state licensure examinations; and

112 b. Permit students completing career and technical education programs designed to enable such
113 students to pass such industry certification examinations or state licensure examinations to be awarded,
114 upon obtaining satisfactory scores on such industry certification or licensure examinations, appropriate
115 credit for one or more career and technical education classes into which relevant Standards of Learning
116 for various classes taught at the same level have been integrated. Such industry certification and state
117 licensure examinations may cover relevant Standards of Learning for various required classes and may,
118 at the discretion of the Board, address some Standards of Learning for several required classes.

119 13. Provide for the waiver of certain graduation requirements (i) upon the Board's initiative or (ii) at
120 the request of a local school board. Such waivers shall be granted only for good cause and shall be
121 considered on a case-by-case basis.

14. Consider all computer science course credits earned by students to be science course credits, mathematics course credits, or career and technical education credits. The Board of Education shall develop guidelines addressing how computer science courses can satisfy graduation requirements.

15. Permit local school divisions to waive the requirement for students to receive 140 clock hours of instruction upon providing the Board with satisfactory proof, based on Board guidelines, that the students for whom such requirements are waived have learned the content and skills included in the relevant Standards of Learning.

16. Provide for the award of verified units of credit for a satisfactory score, as determined by the Board, on the Preliminary ACT (PreACT) or Preliminary SAT/National Merit Scholarship Qualifying Test (PSAT/NMSQT) examination.

17. Permit students to exceed a full course load in order to participate in courses offered by an institution of higher education that lead to a degree, certificate, or credential at such institution.

18. Permit local school divisions to waive the requirement for students to receive 140 clock hours of instruction after the student has completed the course curriculum and relevant Standards of Learning end-of-course assessment, or Board-approved substitute, provided that such student subsequently receives instruction, coursework, or study toward an industry certification approved by the local school board.

19. Permit any English language learner who previously earned a sufficient score on an Advanced Placement or International Baccalaureate foreign language examination or an SAT II Subject Test in a foreign language to substitute computer coding course credit for any foreign language course credit required to graduate, except in cases in which such foreign language course credit is required to earn an advanced diploma offered by a nationally recognized provider of college-level courses.

E. In the exercise of its authority to recognize exemplary performance by providing for diploma seals:

1. The Board shall develop criteria for recognizing exemplary performance in career and technical education programs by students who have completed the requirements for a Board of Education-approved diploma and shall award seals on the diplomas of students meeting such criteria.

2. The Board shall establish criteria for awarding a diploma seal for science, technology, engineering, and mathematics (STEM) for the Board of Education-approved diplomas. The Board shall consider including criteria for (i) relevant coursework; (ii) technical writing, reading, and oral communication skills; (iii) relevant training; and (iv) industry, professional, and trade association national certifications.

3. The Board shall establish criteria for awarding a diploma seal for excellence in civics education and understanding of our state and federal constitutions and the democratic model of government for the Board of Education-approved diplomas. The Board shall consider including criteria for (i) successful completion of history, government, and civics courses, including courses that incorporate character education; (ii) voluntary participation in community service or extracurricular activities that includes the types of activities that shall qualify as community service and the number of hours required; and (iii) related requirements as it deems appropriate.

4. The Board shall establish criteria for awarding a diploma seal of biliteracy to any student who demonstrates proficiency in English and at least one other language for the Board of Education-approved diplomas. The Board shall consider criteria including the student's (i) score on a College Board Advanced Placement foreign language examination, (ii) score on an SAT II Subject Test in a foreign language, (iii) proficiency level on an ACTFL Assessment of Performance toward Proficiency in Languages (AAPPL) measure or another nationally or internationally recognized language proficiency test, or (iv) cumulative grade point average in a sequence of foreign language courses approved by the Board.

F. The Board shall establish, by regulation, requirements for the award of a general achievement adult high school diploma for those persons who are not subject to the compulsory school attendance requirements of § 22.1-254 and have (i) achieved a passing score on a high school equivalency examination approved by the Board of Education; (ii) successfully completed an education and training program designated by the Board of Education; (iii) earned a Board of Education-approved career and technical education credential such as the successful completion of an industry certification, a state licensure examination, a national occupational competency assessment, the Armed Services Vocational Aptitude Battery, or the Virginia workplace readiness skills assessment; and (iv) satisfied other requirements as may be established by the Board for the award of such diploma.

G. To ensure the uniform assessment of high school graduation rates, the Board shall collect, analyze, report, and make available to the public high school graduation and dropout data using a formula prescribed by the Board.

H. The Board shall also collect, analyze, report, and make available to the public high school graduation and dropout data using a formula that excludes any student who fails to graduate because such student is in the custody of the Department of Corrections, the Department of Juvenile Justice, or local law enforcement. For the purposes of the Standards of Accreditation, the Board shall use the

183 graduation rate required by this subsection.

184 I. The Board may promulgate such regulations as may be necessary and appropriate for the
185 collection, analysis, and reporting of such data required by subsections G and H.
