

2020 SESSION

INTRODUCED

20105119D

SENATE BILL NO. 757

Offered January 8, 2020

Prefiled January 8, 2020

A *BILL to require the Department of Health to determine the feasibility of the establishment of a Medical Excellence Zone Program and to require the Department of Health Professions to pursue reciprocal agreements with states contiguous with the Commonwealth for licensure for certain primary care practitioners under the Board of Medicine.*

Patrons—Favola, Chafin and Kiggans

Referred to Committee on Education and Health

Be it enacted by the General Assembly of Virginia:

1. *§ 1. That the Department of Health shall determine the feasibility of establishing a Medical Excellence Zone Program to allow citizens of the Commonwealth living in rural underserved areas to receive medical treatment via telemedicine services as defined in § 38.2-3418.16 of the Code of Virginia from providers licensed or registered in a state that is contiguous with the Commonwealth. The Department shall set out the criteria that would be required for a locality or group of localities in the Commonwealth to be eligible for the designation as a medical excellence zone. Such criteria shall include that any locality or group of localities eligible for the program must demonstrate economic disadvantage of residents in the proposed medical excellence zone. The Department of Health shall report its findings to the Senate Committee on Education and Health and the House Committee on Health, Welfare and Institutions by November 1, 2020.*

2. *§ 1. That the Department of Health Professions shall pursue the establishment of reciprocal agreements with states that are contiguous with the Commonwealth for the licensure of doctors of medicine, doctors of osteopathic medicine, physician assistants, and nurse practitioners. Reciprocal agreements shall only require that a person hold a current, unrestricted license in the other jurisdiction and that no grounds exist for denial based on § 54.1-2915 of the Code of Virginia. The Department of Health Professions shall report on its progress in establishing such agreements to the Senate Committee on Education and Health and the House Committee on Health, Welfare and Institutions by November 1, 2020.*

Such reciprocal agreements shall provide that applicants for licensure as a doctor of medicine or osteopathic medicine from such states that are contiguous with the Commonwealth shall receive priority in processing their applications for licensure by endorsement through a streamlined process, with a final determination regarding qualification to be made within 20 days of the receipt of a completed application.
