In any court or legal proceeding in which any question arises about the calibration or accuracy of any laser speed determination device, radar, ~~or~~ microcomputer device, *or photo speed monitoring device* as described in this section used to determine the speed of any motor vehicle, a certificate, or a true copy thereof, showing the calibration or accuracy of ~~(i)~~ (a) the speedometer of any vehicle, ~~(ii)~~ (b) any tuning fork employed in calibrating or testing the radar or other speed determination device, or ~~(iii)~~ (c) any other method employed in calibrating or testing any laser speed determination device *or photo speed monitoring device*, and when and by whom the calibration was made, shall be admissible as evidence of the facts therein stated. No calibration or testing of ~~such~~ any device *other than a photo speed monitoring device* shall be valid for longer than six months. *No calibration or testing of a photo speed monitoring device shall be valid for longer than 12 months.*

The driver of any such motor vehicle may be arrested without a warrant under this section if the arresting officer is in uniform and displays his badge of authority and if the officer has observed the registration of the speed of such motor vehicle by the laser speed determination device, radar, or microcomputer device as described in this section, or has received a radio message from the officer who observed the speed of the motor vehicle registered by the laser speed determination device, radar, or microcomputer device as described in this section. However, in case of an arrest based on such a message, such radio message shall have been dispatched immediately after the speed of the motor vehicle was registered and furnished the license number or other positive identification of the vehicle and the registered speed to the arresting officer.

Neither State Police officers nor local law-enforcement officers shall use laser speed determination devices or radar, as described herein in airplanes or helicopters for the purpose of determining the speed of motor vehicles.

State Police officers may use laser speed determination devices, radar, and/or microcomputer devices as described in this section. All localities may use radar and laser speed determination devices to measure speed. *State Police officers and any locality may use photo speed monitoring devices to measure speed as authorized in § 46.2-882.1.* The Cities of Alexandria, Fairfax, Falls Church, Manassas, and Manassas Park and the Counties of Arlington, Fairfax, Loudoun, and Prince William and towns within such counties may use microcomputer devices as described in this section.

§ 46.2-882.1. Use of photo speed monitoring devices in highway work zones and school crossing zones; civil penalty.

A. For the purposes of this section:

"Highway work zone" has the same meaning ascribed to it in § 46.2-878.1.

"Photo speed monitoring device" means equipment that uses radar or LIDAR-based speed detection and produces one or more photographs, microphotographs, videotapes, or other recorded images of vehicles.

"School crossing zone" has the same meaning ascribed to it in § 46.2-873.

B. A law-enforcement agency or locality may operate a photo speed monitoring device in school crossing zones from the purposes of recording violations of § 46.2-873 and in highway work zones for the purposes of recording violations of § 46.2-878.1.

1. The operator of a vehicle shall be liable for a monetary civil penalty imposed pursuant to this section if such vehicle is found, as evidenced by information obtained from a photo speed monitoring device, to be traveling at speeds of at least 10 miles per hour above the posted school crossing zone or highway work zone speed limit within such school crossing zone or highway work zone. Such civil penalty shall not exceed \$125, and any prosecution shall be instituted and conducted in the same manner as prosecution for traffic infractions. Civil penalties collected under this section resulting from a summons issued by a local law-enforcement officer shall be paid to the locality in which such violation occurred. Civil penalties collected under this section resulting from a summons issued by a law-enforcement officer employed by the Department of State Police shall be paid into the state treasury and allocated to a special nonreverting fund for the Department of State Police.

2. If a photo speed monitoring device is used, proof of a violation of § 46.2-873 or 46.2-878.1 shall be evidenced by information obtained from such device. A certificate, or a facsimile thereof, sworn to or affirmed by a law-enforcement officer, based upon inspection of photographs, microphotographs, videotapes, or other recorded images produced by a photo speed monitoring device, shall be prima facie evidence of the facts contained therein. Any photographs, microphotographs, videotapes, or other recorded images evidencing such a violation shall be available for inspection in any proceeding to adjudicate the liability for such violation of § 46.2-873 or 46.2-878.1.

3. In the prosecution for a violation of § 46.2-873 or 46.2-878.1 in which a summons was issued by mail, prima facie evidence that the vehicle described in the summons issued pursuant to this section was operated in violation of § 46.2-873 or 46.2-878.1, together with proof that the defendant was at the time of such violation the owner, lessee, or renter of the vehicle, shall constitute in evidence a rebuttable presumption that such owner, lessee, or renter of the vehicle was the person who committed the violation. Such presumption shall be rebutted if the owner, lessee, or renter of the vehicle (i) files an affidavit by regular mail with the clerk of the general district court that he was not the operator of the vehicle at the time of the alleged violation and provides the name and address of the person who was operating the vehicle at the time of the alleged violation or (ii) testifies in open court under oath that he was not the operator of the vehicle at the time of the alleged violation and provides the name and address of the person who was operating the vehicle at the time of the alleged violation. Such presumption shall also be rebutted if a certified copy of a police report, showing that the vehicle had been reported to the police as stolen prior to the time of the alleged violation of § 46.2-873 or 46.2-878.1, is presented, prior to the return date established on the summons issued pursuant to this section, to the court adjudicating the alleged violation.

4. Imposition of a penalty pursuant to this section by mailing a summons shall not be deemed a conviction as an operator and shall not be made part of the operating record of the person upon whom such liability is imposed, nor shall it be used for insurance purposes in the provision of motor vehicle insurance coverage. However, if a law-enforcement officer uses a photo speed monitoring device to record a violation of § 46.2-873 or 46.2-878.1 and personally issues a summons at the time of the violation, the conviction that results shall be made a part of such driver's driving record and used for

insurance purposes in the provision of motor vehicle insurance coverage.

5. A summons for a violation of § 46.2-873 or 46.2-878.1 issued by mail pursuant to this section may be executed pursuant to § 19.2-76.2. Notwithstanding the provisions of § 19.2-76, a summons issued by mail pursuant to this section may be executed by mailing by first-class mail a copy thereof to the owner, lessee, or renter of the vehicle. In the case of a vehicle owner, the copy shall be mailed to the address contained in the records of or accessible to the Department. In the case of a vehicle lessee or renter, the copy shall be mailed to the address contained in the records of the lessor or renter. Every such mailing shall include, in addition to the summons, a notice of (i) the summoned person's ability to rebut the presumption that he was the operator of the vehicle at the time of the alleged violation through the filing of an affidavit as provided in subdivision 3 and (ii) instructions for filing such affidavit, including the address to which the affidavit is to be sent. If the summoned person fails to appear on the date of return set out in the summons mailed pursuant to this section, the summons shall be executed in the manner set out in § 19.2-76.3. No proceedings for contempt or arrest of a person summoned by mailing shall be instituted for failure to appear on the return date of the summons. If the summons is issued to an owner, lessee, or renter of a vehicle with a registration outside the Commonwealth and such person fails to appear on the date of return set out in the summons mailed pursuant to this section, the summons will be eligible for all legal collections activities. Any summons executed for a violation of § 46.2-873 or 46.2-878.1 issued pursuant to this section shall provide to the person summoned at least 30 days from the mailing of the summons to inspect information collected by a photo speed monitoring device in connection with the violation. If the law-enforcement agency or locality that was operating the photo speed monitoring device does not execute a summons for a violation of § 46.2-873 or 46.2-878.1 issued pursuant to this section within 30 days from the date of the violation, all information collected pertaining to that suspected violation shall be purged within 60 days from the date of the violation.

6. A private vendor may enter into an agreement with a law-enforcement agency or a locality to be compensated for providing a photo speed monitoring device and all related support services, including consulting, operations, and administration. However, only a law-enforcement officer may swear to or affirm the certificate required by this subsection. Any such agreement for compensation shall be based on the value of the goods and services provided, not on the number of violations paid or monetary penalties imposed. Any private vendor contracting with a law-enforcement agency or a locality pursuant to this section may enter into an agreement with the Department, in accordance with the provisions of subdivision B 31 of § 46.2-208, to obtain vehicle owner information regarding the registered owners of vehicles that committed a violation of § 46.2-873 or 46.2-878.1. Any such information provided to such private vendor shall be protected in a database.

7. Information collected by a photo speed monitoring device operated pursuant to this section shall be limited exclusively to that information that is necessary for the enforcement of school crossing zone and highway work zone speeding violations. Information provided to the operator of a photo speed monitoring device shall be protected in a database and used only for enforcement against individuals who violate the provisions of this section or § 46.2-873 or 46.2-878.1. Notwithstanding any other provision of law, all photographs, microphotographs, videotapes, or other recorded images collected by a photo speed monitoring device shall be used exclusively for enforcing school crossing zone and highway work zone speed limits and shall not be (i) open to the public; (ii) sold or used for sales, solicitation, or marketing purposes; (iii) disclosed to any other entity except as may be necessary for the enforcement of school crossing zone and highway work zone speed limits or to a vehicle owner or operator as part of a challenge to the violation; or (iv) used in a court in a pending action or proceeding unless the action or proceeding relates to a violation of this section or § 46.2-873 or 46.2-878.1, or such information is requested upon order from a court of competent jurisdiction. Information collected under this section pertaining to a specific violation shall be purged and not retained later than 60 days after the collection of any civil penalties. Any law-enforcement agency or locality using photo speed monitoring devices shall annually certify compliance with this section and make all records pertaining to such system available for inspection and audit by the Commissioner of Highways or the Commissioner of the Department of Motor Vehicles or his designee. Any person who discloses personal information in violation of the provisions of this subdivision shall be subject to a civil penalty of \$1,000 per disclosure.

8. A conspicuous sign shall be placed within 1,000 feet of any school crossing zone or highway work zone at which a photo speed monitoring device is used, indicating the use of the device. There shall be a rebuttable presumption that such sign was in place at the time of the commission of the speed limit violation.
