2. Patron: Levine

3. Committee: Agriculture, Conservation and Natural Resources

4. Title: Tethering animals; adequate shelter and space.

5. Summary: Provides that outdoor tethering of an animal that is not actively engaged in conduct related to an agricultural activity does not meet the requirement that an animal be given adequate shelter if it occurs (i) between 10 p.m. and 6 a.m.; (ii) when no owner is on the property; (iii) when the temperature is 32 degrees Fahrenheit or lower, or 85 degrees Fahrenheit or higher; (iv) during a heat advisory; or (v) during a severe weather warning. The bill increases certain minimum tether length requirements to meet the requirement that an animal be given adequate space by requiring that a tether be at least 15 feet in length or four times the length of the animal, whichever is greater. Current law requires the tether to be at least 10 feet in length or three times the length of the animal, whichever is greater.

6. Budget Amendment Necessary: No.

7. Fiscal Impact Estimates: Preliminary.

8. Fiscal Implications: It is anticipated that this bill will not result in a fiscal impact to the Department of Agriculture and Consumer Services, as local animal control officers will be responsible for enforcing the provisions.

9. Specific Agency or Political Subdivisions Affected: Department of Agriculture and Consumer Services; localities.

10. Technical Amendment Necessary: No.

11. Other Comments: SB272 is similar to this bill.
