4. Title: Electronic transmission of sexually explicit visual material by minors; penalties.

5. Summary: The bill provides that any minor who knowingly transmits, distributes, publishes, or disseminates to another minor an electronically transmitted communication containing sexually explicit visual material of his own person is guilty of a Class 2 misdemeanor. Additionally, a minor who knowingly possesses at least one but not more than 10 electronically transmitted communications containing sexually explicit visual material of another minor is guilty of a Class 2 misdemeanor.

A minor who violates these provisions would be required to participate in certain treatment programs and perform a mandatory minimum of 50 hours of community service, or subject to other conditions to include the completion of a community-based program that addresses the consequences of transmitting, distributing, publishing, or disseminating sexually explicit visual material via an electronically transmitted communication and the restricted use of the Internet or computer, including an electronic communication device.

For any minor who has not previously been convicted of an offense under this section, the court may defer further proceedings and place such minor on probation upon terms and conditions established by the court for a period not exceeding one year. Upon violation of a term or condition, the court may enter an adjudication of guilt and proceed as otherwise provided.
