4. Title: Electric utilities; on-bill tariff programs.

5. Summary: Authorizes electric utilities to establish on-bill tariff programs under which the utility and a customer enter into an agreement that provides for the costs, including financing costs, of energy efficiency measures to be paid by or through the utility and repaid by the customer by means of an energy savings charge on the customer's monthly bill. Under the bill, energy efficiency measures can include heating and air conditioning systems, water heaters, weatherization, insulation, window and door modifications, appliances, and automatic or Internet-connected control systems. The bill provides terms for such on-bill tariff programs for investor-owned utilities and utility consumer services cooperatives. Additionally, the bill authorizes electric utilities to establish similar on-bill tariff programs for electrification and renewable facilities, which include equipment, facilities, Internet connectivity, electric vehicle charging, backup generators, and storage facilities.
