

20200669D

HOUSE BILL NO. 5140

Offered August 26, 2020

A BILL to amend and reenact §§ 32.1-127, 32.1-162.5, and 63.2-1732 of the Code of Virginia, relating to long-term care facilities; public health emergency; patient visitation; end of life.

Patrons—Robinson, Avoli, Batten, Cole, M.L., Coyner, Edmunds, Fowler, Gilbert, LaRock, Marshall, Runion, Walker and Wright

Referred to Committee on Health, Welfare and Institutions

Be it enacted by the General Assembly of Virginia:

1. That §§ 32.1-127, 32.1-162.5, and 63.2-1732 of the Code of Virginia are amended and reenacted as follows:

§ 32.1-127. Regulations.

A. The regulations promulgated by the Board to carry out the provisions of this article shall be in substantial conformity to the standards of health, hygiene, sanitation, construction and safety as established and recognized by medical and health care professionals and by specialists in matters of public health and safety, including health and safety standards established under provisions of Title XVIII and Title XIX of the Social Security Act, and to the provisions of Article 2 (§ 32.1-138 et seq.).

B. Such regulations:

1. Shall include minimum standards for (i) the construction and maintenance of hospitals, nursing homes and certified nursing facilities to ensure the environmental protection and the life safety of its patients, employees, and the public; (ii) the operation, staffing and equipping of hospitals, nursing homes and certified nursing facilities; (iii) qualifications and training of staff of hospitals, nursing homes and certified nursing facilities, except those professionals licensed or certified by the Department of Health Professions; (iv) conditions under which a hospital or nursing home may provide medical and nursing services to patients in their places of residence; and (v) policies related to infection prevention, disaster preparedness, and facility security of hospitals, nursing homes, and certified nursing facilities;

2. Shall provide that at least one physician who is licensed to practice medicine in this Commonwealth shall be on call at all times, though not necessarily physically present on the premises, at each hospital which operates or holds itself out as operating an emergency service;

3. May classify hospitals and nursing homes by type of specialty or service and may provide for licensing hospitals and nursing homes by bed capacity and by type of specialty or service;

4. Shall also require that each hospital establish a protocol for organ donation, in compliance with federal law and the regulations of the Centers for Medicare and Medicaid Services (CMS), particularly 42 C.F.R. § 482.45. Each hospital shall have an agreement with an organ procurement organization designated in CMS regulations for routine contact, whereby the provider's designated organ procurement organization certified by CMS (i) is notified in a timely manner of all deaths or imminent deaths of patients in the hospital and (ii) is authorized to determine the suitability of the decedent or patient for organ donation and, in the absence of a similar arrangement with any eye bank or tissue bank in Virginia certified by the Eye Bank Association of America or the American Association of Tissue Banks, the suitability for tissue and eye donation. The hospital shall also have an agreement with at least one tissue bank and at least one eye bank to cooperate in the retrieval, processing, preservation, storage, and distribution of tissues and eyes to ensure that all usable tissues and eyes are obtained from potential donors and to avoid interference with organ procurement. The protocol shall ensure that the hospital collaborates with the designated organ procurement organization to inform the family of each potential donor of the option to donate organs, tissues, or eyes or to decline to donate. The individual making contact with the family shall have completed a course in the methodology for approaching potential donor families and requesting organ or tissue donation that (a) is offered or approved by the organ procurement organization and designed in conjunction with the tissue and eye bank community and (b) encourages discretion and sensitivity according to the specific circumstances, views, and beliefs of the relevant family. In addition, the hospital shall work cooperatively with the designated organ procurement organization in educating the staff responsible for contacting the organ procurement organization's personnel on donation issues, the proper review of death records to improve identification of potential donors, and the proper procedures for maintaining potential donors while necessary testing and placement of potential donated organs, tissues, and eyes takes place. This process shall be followed, without exception, unless the family of the relevant decedent or patient has expressed opposition to organ donation, the chief administrative officer of the hospital or his designee knows of such opposition, and no donor card or other relevant document, such as an advance directive, can be found;

INTRODUCED

HB5140

58 5. Shall require that each hospital that provides obstetrical services establish a protocol for admission
59 or transfer of any pregnant woman who presents herself while in labor;

60 6. Shall also require that each licensed hospital develop and implement a protocol requiring written
61 discharge plans for identified, substance-abusing, postpartum women and their infants. The protocol shall
62 require that the discharge plan be discussed with the patient and that appropriate referrals for the mother
63 and the infant be made and documented. Appropriate referrals may include, but need not be limited to,
64 treatment services, comprehensive early intervention services for infants and toddlers with disabilities
65 and their families pursuant to Part H of the Individuals with Disabilities Education Act, 20 U.S.C.
66 § 1471 et seq., and family-oriented prevention services. The discharge planning process shall involve, to
67 the extent possible, the other parent of the infant and any members of the patient's extended family who
68 may participate in the follow-up care for the mother and the infant. Immediately upon identification,
69 pursuant to § 54.1-2403.1, of any substance-abusing, postpartum woman, the hospital shall notify,
70 subject to federal law restrictions, the community services board of the jurisdiction in which the woman
71 resides to appoint a discharge plan manager. The community services board shall implement and manage
72 the discharge plan;

73 7. Shall require that each nursing home and certified nursing facility fully disclose to the applicant
74 for admission the home's or facility's admissions policies, including any preferences given;

75 8. Shall require that each licensed hospital establish a protocol relating to the rights and
76 responsibilities of patients which shall include a process reasonably designed to inform patients of such
77 rights and responsibilities. Such rights and responsibilities of patients, a copy of which shall be given to
78 patients on admission, shall be consistent with applicable federal law and regulations of the Centers for
79 Medicare and Medicaid Services;

80 9. Shall establish standards and maintain a process for designation of levels or categories of care in
81 neonatal services according to an applicable national or state-developed evaluation system. Such
82 standards may be differentiated for various levels or categories of care and may include, but need not be
83 limited to, requirements for staffing credentials, staff/patient ratios, equipment, and medical protocols;

84 10. Shall require that each nursing home and certified nursing facility train all employees who are
85 mandated to report adult abuse, neglect, or exploitation pursuant to § 63.2-1606 on such reporting
86 procedures and the consequences for failing to make a required report;

87 11. Shall permit hospital personnel, as designated in medical staff bylaws, rules and regulations, or
88 hospital policies and procedures, to accept emergency telephone and other verbal orders for medication
89 or treatment for hospital patients from physicians, and other persons lawfully authorized by state statute
90 to give patient orders, subject to a requirement that such verbal order be signed, within a reasonable
91 period of time not to exceed 72 hours as specified in the hospital's medical staff bylaws, rules and
92 regulations or hospital policies and procedures, by the person giving the order, or, when such person is
93 not available within the period of time specified, co-signed by another physician or other person
94 authorized to give the order;

95 12. Shall require, unless the vaccination is medically contraindicated or the resident declines the offer
96 of the vaccination, that each certified nursing facility and nursing home provide or arrange for the
97 administration to its residents of (i) an annual vaccination against influenza and (ii) a pneumococcal
98 vaccination, in accordance with the most recent recommendations of the Advisory Committee on
99 Immunization Practices of the Centers for Disease Control and Prevention;

100 13. Shall require that each nursing home and certified nursing facility register with the Department of
101 State Police to receive notice of the registration, reregistration, or verification of registration information
102 of any person required to register with the Sex Offender and Crimes Against Minors Registry pursuant
103 to Chapter 9 (§ 9.1-900 et seq.) of Title 9.1 within the same or a contiguous zip code area in which the
104 home or facility is located, pursuant to § 9.1-914;

105 14. Shall require that each nursing home and certified nursing facility ascertain, prior to admission,
106 whether a potential patient is required to register with the Sex Offender and Crimes Against Minors
107 Registry pursuant to Chapter 9 (§ 9.1-900 et seq.) of Title 9.1, if the home or facility anticipates the
108 potential patient will have a length of stay greater than three days or in fact stays longer than three
109 days;

110 15. Shall require that each licensed hospital include in its visitation policy a provision allowing each
111 adult patient to receive visits from any individual from whom the patient desires to receive visits,
112 subject to other restrictions contained in the visitation policy including, but not limited to, those related
113 to the patient's medical condition and the number of visitors permitted in the patient's room
114 simultaneously;

115 16. Shall require that each nursing home and certified nursing facility shall, upon the request of the
116 facility's family council, send notices and information about the family council mutually developed by
117 the family council and the administration of the nursing home or certified nursing facility, and provided
118 to the facility for such purpose, to the listed responsible party or a contact person of the resident's
119 choice up to six times per year. Such notices may be included together with a monthly billing statement

or other regular communication. Notices and information shall also be posted in a designated location within the nursing home or certified nursing facility. No family member of a resident or other resident representative shall be restricted from participating in meetings in the facility with the families or resident representatives of other residents in the facility;

17. Shall require that each nursing home and certified nursing facility maintain liability insurance coverage in a minimum amount of \$1 million, and professional liability coverage in an amount at least equal to the recovery limit set forth in § 8.01-581.15, to compensate patients or individuals for injuries and losses resulting from the negligent or criminal acts of the facility. Failure to maintain such minimum insurance shall result in revocation of the facility's license;

18. Shall require each hospital that provides obstetrical services to establish policies to follow when a stillbirth, as defined in § 32.1-69.1, occurs that meet the guidelines pertaining to counseling patients and their families and other aspects of managing stillbirths as may be specified by the Board in its regulations;

19. Shall require each nursing home to provide a full refund of any unexpended patient funds on deposit with the facility following the discharge or death of a patient, other than entrance-related fees paid to a continuing care provider as defined in § 38.2-4900, within 30 days of a written request for such funds by the discharged patient or, in the case of the death of a patient, the person administering the person's estate in accordance with the Virginia Small Estates Act (§ 64.2-600 et seq.);

20. Shall require that each hospital that provides inpatient psychiatric services establish a protocol that requires, for any refusal to admit (i) a medically stable patient referred to its psychiatric unit, direct verbal communication between the on-call physician in the psychiatric unit and the referring physician, if requested by such referring physician, and prohibits on-call physicians or other hospital staff from refusing a request for such direct verbal communication by a referring physician and (ii) a patient for whom there is a question regarding the medical stability or medical appropriateness of admission for inpatient psychiatric services due to a situation involving results of a toxicology screening, the on-call physician in the psychiatric unit to which the patient is sought to be transferred to participate in direct verbal communication, either in person or via telephone, with a clinical toxicologist or other person who is a Certified Specialist in Poison Information employed by a poison control center that is accredited by the American Association of Poison Control Centers to review the results of the toxicology screen and determine whether a medical reason for refusing admission to the psychiatric unit related to the results of the toxicology screen exists, if requested by the referring physician;

21. Shall require that each hospital that is equipped to provide life-sustaining treatment shall develop a policy governing determination of the medical and ethical appropriateness of proposed medical care, which shall include (i) a process for obtaining a second opinion regarding the medical and ethical appropriateness of proposed medical care in cases in which a physician has determined proposed care to be medically or ethically inappropriate; (ii) provisions for review of the determination that proposed medical care is medically or ethically inappropriate by an interdisciplinary medical review committee and a determination by the interdisciplinary medical review committee regarding the medical and ethical appropriateness of the proposed health care; and (iii) requirements for a written explanation of the decision reached by the interdisciplinary medical review committee, which shall be included in the patient's medical record. Such policy shall ensure that the patient, his agent, or the person authorized to make medical decisions pursuant to § 54.1-2986 (a) are informed of the patient's right to obtain his medical record and to obtain an independent medical opinion and (b) afforded reasonable opportunity to participate in the medical review committee meeting. Nothing in such policy shall prevent the patient, his agent, or the person authorized to make medical decisions pursuant to § 54.1-2986 from obtaining legal counsel to represent the patient or from seeking other remedies available at law, including seeking court review, provided that the patient, his agent, or the person authorized to make medical decisions pursuant to § 54.1-2986, or legal counsel provides written notice to the chief executive officer of the hospital within 14 days of the date on which the physician's determination that proposed medical treatment is medically or ethically inappropriate is documented in the patient's medical record;

22. Shall require every hospital with an emergency department to establish protocols to ensure that security personnel of the emergency department, if any, receive training appropriate to the populations served by the emergency department, which may include training based on a trauma-informed approach in identifying and safely addressing situations involving patients or other persons who pose a risk of harm to themselves or others due to mental illness or substance abuse or who are experiencing a mental health crisis;

23. Shall require that each hospital establish a protocol requiring that, before a health care provider arranges for air medical transportation services for a patient who does not have an emergency medical condition as defined in 42 U.S.C. § 1395dd(e)(1), the hospital shall provide the patient or his authorized representative with written or electronic notice that the patient (i) may have a choice of transportation by an air medical transportation provider or medically appropriate ground transportation by an emergency

medical services provider and (ii) will be responsible for charges incurred for such transportation in the event that the provider is not a contracted network provider of the patient's health insurance carrier or such charges are not otherwise covered in full or in part by the patient's health insurance plan;

24. Shall establish an exemption, for a period of no more than 30 days, from the requirement to obtain a license to add temporary beds in an existing hospital or nursing home when the Commissioner has determined that a natural or man-made disaster has caused the evacuation of a hospital or nursing home and that a public health emergency exists due to a shortage of hospital or nursing home beds;

25. Shall establish protocols to ensure that any patient scheduled to receive an elective surgical procedure for which the patient can reasonably be expected to require outpatient physical therapy as a follow-up treatment after discharge is informed that he (i) is expected to require outpatient physical therapy as a follow-up treatment and (ii) will be required to select a physical therapy provider prior to being discharged from the hospital;

26. Shall permit nursing home staff members who are authorized to possess, distribute, or administer medications to residents to store, dispense, or administer cannabis oil to a resident who has been issued a valid written certification for the use of cannabis oil in accordance with subsection B of § 54.1-3408.3 and has registered with the Board of Pharmacy; and

27. Shall require each hospital with an emergency department to establish a protocol for treatment of individuals experiencing a substance use-related emergency to include the completion of appropriate assessments or screenings to identify medical interventions necessary for the treatment of the individual in the emergency department. The protocol may also include a process for patients that are discharged directly from the emergency department for the recommendation of follow-up care following discharge for any identified substance use disorder, depression, or mental health disorder, as appropriate, which may include instructions for distribution of naloxone, referrals to peer recovery specialists and community-based providers of behavioral health services, or referrals for pharmacotherapy for treatment of drug or alcohol dependence or mental health diagnoses; and

28. *During a declared public health emergency related to a communicable disease of public health threat, shall require each hospital, nursing home, and certified nursing facility to allow patients to receive visits from members of the patient's family or any other person designated by the patient when the patient has been diagnosed with a terminal condition or illness and the patient's death is expected to be imminent. Any person visiting a patient pursuant to this subdivision shall comply with all reasonable requirements of the hospital, nursing home, or certified nursing facility adopted to protect the health and safety of patients and staff of the hospital, nursing home, or certified nursing facility.*

C. Upon obtaining the appropriate license, if applicable, licensed hospitals, nursing homes, and certified nursing facilities may operate adult day care centers.

D. All facilities licensed by the Board pursuant to this article which provide treatment or care for hemophiliacs and, in the course of such treatment, stock clotting factors, shall maintain records of all lot numbers or other unique identifiers for such clotting factors in order that, in the event the lot is found to be contaminated with an infectious agent, those hemophiliacs who have received units of this contaminated clotting factor may be apprised of this contamination. Facilities which have identified a lot that is known to be contaminated shall notify the recipient's attending physician and request that he notify the recipient of the contamination. If the physician is unavailable, the facility shall notify by mail, return receipt requested, each recipient who received treatment from a known contaminated lot at the individual's last known address.

§ 32.1-162.5. Regulations.

A. The Board shall prescribe such regulations governing the activities and services provided by hospices as may be necessary to protect the public health, safety and welfare. Such regulations shall include, but not be limited to, the requirements for: the qualifications and supervision of licensed and nonlicensed personnel; the standards for the care, treatment, health, safety, welfare, and comfort of patients and their families served by the program; the management, operation, staffing and equipping of the hospice program or hospice facility; clinical and business records kept by the hospice or hospice facility; and procedures for the review of utilization and quality of care. To avoid duplication in regulations, the Board shall incorporate regulations applicable to facilities licensed as hospitals or nursing homes under § 32.1-123 et seq. and to organizations licensed as home health agencies under Article 7.1 (§ 32.1-162.7 et seq.) of Chapter 5 of this title which are also applicable to hospice programs in the regulations to govern hospices. A person who seeks a license to establish or operate a hospice and who has a preexisting valid license to operate a hospital, nursing home or home health agency shall be considered in compliance with those regulations which are applicable to both a hospice and the facility for which it has a license.

B. Notwithstanding any law or regulation to the contrary, regulations for hospice facilities shall include minimum standards for design and construction consistent with the Hospice Care section of the current edition of the Guidelines for Design and Construction of Health Care Facilities issued by the American Institute of Architects Academy of Architecture for Health.

C. Regulations for hospice facilities shall include a requirement that, during a declared public health emergency related to a communicable disease of public health threat, every hospice facility shall allow patients to receive visits from members of the patient's family or any other person designated by the patient when the patient has been diagnosed with a terminal condition or illness and the patient's death is expected to be imminent. Any person visiting a patient pursuant to this subsection shall comply with all reasonable requirements of the hospice facility adopted to protect the health and safety of patients and staff of the hospice facility.

§ 63.2-1732. Regulations for assisted living facilities.

A. The Board shall have the authority to adopt and enforce regulations to carry out the provisions of this subtitle and to protect the health, safety, welfare and individual rights of residents of assisted living facilities and to promote their highest level of functioning. Such regulations shall take into consideration cost constraints of smaller operations in complying with such regulations and shall provide a procedure whereby a licensee or applicant may request, and the Commissioner may grant, an allowable variance to a regulation pursuant to § 63.2-1703.

B. Regulations shall include standards for staff qualifications and training; facility design, functional design and equipment; services to be provided to residents; administration of medicine; allowable medical conditions for which care can be provided; and medical procedures to be followed by staff, including provisions for physicians' services, restorative care, and specialized rehabilitative services. The Board shall adopt regulations on qualifications and training for employees of an assisted living facility in a direct care position. "Direct care position" means supervisors, assistants, aides, or other employees of a facility who assist residents in their daily living activities.

C. Regulations for a Medication Management Plan in a licensed assisted living facility shall be developed by the Board, in consultation with the Board of Nursing and the Board of Pharmacy. Such regulations shall (i) establish the elements to be contained within a Medication Management Plan, including a demonstrated understanding of the responsibilities associated with medication management by the facility; standard operating and record-keeping procedures; staff qualifications, training and supervision; documentation of daily medication administration; and internal monitoring of plan conformance by the facility; (ii) include a requirement that each assisted living facility shall establish and maintain a written Medication Management Plan that has been approved by the Department; and (iii) provide that a facility's failure to conform to any approved Medication Management Plan shall be subject to the sanctions set forth in § 63.2-1709 or 63.2-1709.2.

D. The Board shall amend 22VAC40-73-450 governing assisted living facility individualized service plans to require (i) that individualized service plans be reviewed and updated (a) at least once every 12 months or (b) sooner if modifications to the plan are needed due to a significant change, as defined in 22VAC40-73-10, in the resident's condition and (ii) that any deviation from the individualized service plan (a) be documented in writing or electronically, (b) include a description of the circumstances warranting deviation and the date such deviation will occur, (c) certify that notice of such deviation was provided to the resident or his legal representative, (d) be included in the resident's file, and (e) in the case of deviations that are made due to a significant change in the resident's condition, be signed by an authorized representative of the assisted living facility and the resident or his legal representative.

E. Regulations shall require all licensed assisted living facilities with six or more residents to be able to connect by July 1, 2007, to a temporary emergency electrical power source for the provision of electricity during an interruption of the normal electric power supply. The installation shall be in compliance with the Uniform Statewide Building Code.

F. Regulations for medical procedures in assisted living facilities shall be developed in consultation with the State Board of Health and adopted by the Board, and compliance with these regulations shall be determined by Department of Health or Department inspectors as provided by an interagency agreement between the Department and the Department of Health.

G. In developing regulations to determine the number of assisted living facilities for which an assisted living facility administrator may serve as administrator of record, the Board shall consider (i) the number of residents in each of the facilities, (ii) the travel time between each of the facilities, and (iii) the qualifications of the on-site manager under the supervision of the administrator of record.

H. Regulations shall require that each assisted living facility register with the Department of State Police to receive notice of the registration, reregistration, or verification of registration information of any person required to register with the Sex Offender and Crimes Against Minors Registry pursuant to Chapter 9 (§ 9.1-900 et seq.) of Title 9.1 within the same or a contiguous zip code area in which the facility is located, pursuant to § 9.1-914.

I. Regulations shall require that each assisted living facility ascertain, prior to admission, whether a potential resident is required to register with the Sex Offender and Crimes Against Minors Registry pursuant to Chapter 9 (§ 9.1-900 et seq.) of Title 9.1, if the facility anticipates the potential resident will have a length of stay greater than three days or in fact stays longer than three days.

304 *J. Regulations for assisted living facilities shall require, during a declared public health emergency*
305 *related to a communicable disease of public health threat, each assisted living facility to allow residents*
306 *of the assisted living facility who have been diagnosed with a terminal illness or condition and continue*
307 *to reside at the assisted living facility to receive visits from members of the resident's family or any*
308 *other person designated by the resident when the resident's death is expected to be imminent. Any*
309 *person visiting a resident pursuant to this subsection shall comply with all reasonable requirements of*
310 *the assisted living facility adopted to protect the health and safety of patients and staff of the assisted*
311 *living facility.*
