3. Committee: Health, Welfare and Institutions

4. Title: Vaccines; requirements for inclusion on list of required vaccines.

5. Summary: Provides that no vaccine shall be added to the list of required vaccines if (i) the vaccine is derived from human fetal tissue, (ii) the vaccine modifies the ribonucleic acid (RNA) or deoxyribonucleic acid (DNA) of the person to whom it is administered, or (iii) development of the vaccine did not include preclinical testing on laboratory animals prior to clinical trials involving human testing. The bill also requires the Department of Health to shall make data and information about the safety and efficacy of each vaccine required pursuant to this section and regulations of the Board, including data and information about any risk of harm associated with administration of the vaccine, available to the public on a website maintained by the Department. Such data and information shall be presented in a manner that is easily understandable and accessible to all individuals.

6. Budget Amendment Necessary: No.

7. No Fiscal Impact.

8. Fiscal Implications: This bill would not have a fiscal impact on the Commonwealth. The Virginia Department of Health already publishes vaccine information on its website.

9. Specific Agency or Political Subdivisions Affected: None.

10. Technical Amendment Necessary: No.

11. Other Comments: None.
