2. Patron: McClellan

3. Committee: Finance and Appropriations

4. Title: Public utilities; Emergency Debt Repayment Plan.

5. Summary: Requires every jurisdictional utility providing electric, gas, or water service to develop an Emergency Debt Repayment Plan (EDRP) for residential customers. The bill requires that an EDRP is designed to ensure that debt repayments accrued during a certain state of emergency or a certain service disconnection moratorium, in addition to the customer's regular utility bill are sustainable and affordable for the customer. The bill provides that EDRP will allow for (i) an up to 12-month repayment period, and (ii) a customer to roll over remaining debt with any debt accrued under a subsequent state of emergency. The bill prohibits a utility from requiring any deposit, application fee, or other type of advance payment before enrolling a customer in an EDRP and from charging any interest, finance charges, or prepayment penalties on the unpaid debt while the customer is enrolled in an EDRP. The bill requires utilities to offer to enroll eligible customers and prohibits a utility from discontinuing service for any customer enrolled in the program provided the customer remains in compliance with the terms of the EDRP and remains current on the customer's current utility bill. The bill requires each jurisdictional utility to submit a report to the Commission and for the Commission to report the information to the chairs of the House Committees on Labor and Commerce and Appropriations and the Senate Committees on Commerce and Labor and Finance and Appropriations. The bill requires each municipal to provide information to the chairs of the House Committees on Labor and Commerce and Appropriations and the Senate Committees on Commerce and Labor and Finance and Appropriations.
