1. Any information of which he may become aware in his official capacity indicating a reasonable

belief that such a health professional is in need of treatment or has been voluntarily admitted as a patient, either at his institution or any other health care institution, for treatment of substance abuse or a psychiatric illness that may render the health professional a danger to himself, the public or his patients. If such health care professional has been involuntarily admitted as a patient, either in his own institution or any other health care institution, for treatment of substance abuse or a psychiatric illness, the report required by this section shall be made within five days of the date on which the chief executive officer, chief of staff, director, or administrator learns of the health care professional's involuntary admission.

2. Any information of which he may become aware in his official capacity indicating a reasonable belief, after review and, if necessary, an investigation or consultation with the appropriate internal boards or committees authorized to impose disciplinary action on a health professional, that a health professional may have engaged in unethical, fraudulent or unprofessional conduct as defined by the pertinent licensing statutes and regulations. The report required under this subdivision shall be submitted within 30 days of the date that the chief executive officer, chief of staff, director, or administrator determines that such reasonable belief exists.

3. Any disciplinary proceeding begun by the institution, organization, facility, or provider as a result of conduct involving (i) intentional or negligent conduct that causes or is likely to cause injury to a patient or patients, (ii) professional ethics, (iii) professional incompetence, (iv) moral turpitude, or (v) substance abuse. The report required under this subdivision shall be submitted within 30 days of the date of written communication to the health professional notifying him of the initiation of a disciplinary proceeding.

4. Any disciplinary action taken during or at the conclusion of disciplinary proceedings or while under investigation, including but not limited to denial or termination of employment, denial or termination of privileges or restriction of privileges that results from conduct involving (i) intentional or negligent conduct that causes or is likely to cause injury to a patient or patients, (ii) professional ethics, (iii) professional incompetence, (iv) moral turpitude, or (v) substance abuse. The report required under this subdivision shall be submitted within 30 days of the date of written communication to the health professional notifying him of any disciplinary action.

5. The voluntary resignation from the staff of the health care institution, home health or hospice organization, assisted living facility, or provider, or voluntary restriction or expiration of privileges at the institution, organization, facility, or provider, of any health professional while such health professional is under investigation or is the subject of disciplinary proceedings taken or begun by the institution, organization, facility, or provider or a committee thereof for any reason related to possible intentional or negligent conduct that causes or is likely to cause injury to a patient or patients, medical incompetence, unprofessional conduct, moral turpitude, mental or physical impairment, or substance abuse.

Any report required by this section shall be in writing directed to the Director of the Department of Health Professions or to the Director of the Office of Licensure and Certification at the Department of Health, shall give the name, address, and date of birth of the person who is the subject of the report and shall fully describe the circumstances surrounding the facts required to be reported. The report shall include the names and contact information of individuals with knowledge about the facts required to be reported and the names and contact information of individuals from whom the hospital or health care institution, organization, facility, or provider sought information to substantiate the facts required to be reported. All relevant medical records shall be attached to the report if patient care or the health professional's health status is at issue. The reporting hospital, health care institution, home health or hospice organization, assisted living facility, or provider shall also provide notice to the Department or the Office that it has submitted a report to the National Practitioner Data Bank under the Health Care Quality Improvement Act (42 U.S.C. § 11101 et seq.). The reporting hospital, health care institution, home health or hospice organization, assisted living facility, or provider shall give the health professional who is the subject of the report an opportunity to review the report. The health professional may submit a separate report if he disagrees with the substance of the report.

This section shall not be construed to require the hospital, health care institution, home health or hospice organization, assisted living facility, or provider to submit any proceedings, minutes, records, or reports that are privileged under § 8.01-581.17, except that the provisions of § 8.01-581.17 shall not bar (i) any report required by this section or (ii) any requested medical records that are necessary to investigate unprofessional conduct reported pursuant to this subtitle or unprofessional conduct that should have been reported pursuant to this subtitle. Under no circumstances shall compliance with this section be construed to waive or limit the privilege provided in § 8.01-581.17. No person or entity shall be obligated to report any matter to the Department or the Office if the person or entity has actual notice that the same matter has already been reported to the Department or the Office. *No person or entity shall be obligated to report a health care provider who is participating in a professional program as described in subsection B of § 8.01-581.16 unless there is a reasonable belief that the participant is not competent to continue to practice or is a danger to himself or to the health and welfare of his patients or the public.*

B. The State Health Commissioner, Commissioner of Social Services, and Commissioner of Behavioral Health and Developmental Services shall report to the Department any information of which

their agencies may become aware in the course of their duties that a health professional may be guilty of fraudulent, unethical, or unprofessional conduct as defined by the pertinent licensing statutes and regulations. E. Any person who fails to make a report to the Department as required by this section shall be subject to a civil penalty not to exceed \$25,000 assessed by the Director. The Director shall report the assessment of such civil penalty to the Commissioner of Health, Commissioner of Social Services, or Commissioner of Behavioral Health and Developmental Services, as appropriate. Any person assessed a civil penalty pursuant to this section shall not receive a license or certification or renewal of such unless such penalty has been paid pursuant to § 32.1-125.01. The Medical College of Virginia Hospitals and the University of Virginia Hospitals shall not receive certification pursuant to § 32.1-137 or Article 1.1 (§ 32.1-102.1 et seq.) of Chapter 4 of Title 32.1 unless such penalty has been paid.
