An oral advance directive shall be made in the presence of the attending physician and two witnesses.

An advance directive may authorize an agent to take any lawful actions necessary to carry out the declarant's decisions, including, but not limited to, granting releases of liability to medical providers, releasing medical records, and making decisions regarding who may visit the patient.

It shall be the responsibility of the declarant to provide for notification to his attending physician that an advance directive has been made. If an advance directive has been submitted to the Advance Health Care Directive Registry pursuant to Article 9 (§ 54.1-2994 et seq.), it shall be the responsibility of the declarant to provide his attending physician, legal representative, or other person with the information necessary to access the advance directive. In the event the declarant is comatose, incapacitated or otherwise mentally or physically incapable of communication, any other person may notify the physician of the existence of an advance directive and, if applicable, the fact that it has been submitted to the Advance Health Care Directive Registry. An attending physician who is so notified shall promptly make the advance directive or a copy of the advance directive, if written, or the fact of the advance directive, if oral, a part of the declarant's medical records.
