**Be it enacted by the General Assembly of Virginia:**

**1. That §§ 3.2-6500, 3.2-6524, 3.2-6546, and 3.2-6551 of the Code of Virginia are amended and reenacted and that the Code of Virginia is amended by adding a section numbered 3.2-6579.1 as follows:**

**§ 3.2-6500. Definitions.**

As used in this chapter unless the context requires a different meaning:

"Abandon" means to desert, forsake, or absolutely give up an animal without having secured another owner or custodian for the animal or by failing to provide the elements of basic care as set forth in § 3.2-6503 for a period of four consecutive days. *"Abandon" shall not include the return of a community cat by a TNR program volunteer.*

"Adequate care" or "care" means the responsible practice of good animal husbandry, handling, production, management, confinement, feeding, watering, protection, shelter, transportation, treatment, and, when necessary, euthanasia, appropriate for the age, species, condition, size and type of the animal and the provision of veterinary care when needed to prevent suffering or impairment of health.

"Adequate exercise" or "exercise" means the opportunity for the animal to move sufficiently to maintain normal muscle tone and mass for the age, species, size, and condition of the animal.

"Adequate feed" means access to and the provision of food that is of sufficient quantity and nutritive value to maintain each animal in good health; is accessible to each animal; is prepared so as to permit ease of consumption for the age, species, condition, size and type of each animal; is provided in a clean and sanitary manner; is placed so as to minimize contamination by excrement and pests; and is provided at suitable intervals for the species, age, and condition of the animal, but at least once daily, except as prescribed by a veterinarian or as dictated by naturally occurring states of hibernation or fasting normal for the species.

"Adequate shelter" means provision of and access to shelter that is suitable for the species, age, condition, size, and type of each animal; provides adequate space for each animal; is safe and protects each animal from injury, rain, sleet, snow, hail, direct sunlight, the adverse effects of heat or cold, physical suffering, and impairment of health; is properly lighted; is properly cleaned; enables each animal to be clean and dry, except when detrimental to the species; during hot weather, is properly shaded and does not readily conduct heat; during cold weather, has a windbreak at its entrance and provides a quantity of bedding material consisting of hay, cedar shavings, or the equivalent that is sufficient to protect the animal from cold and promote the retention of body heat; and, for dogs and cats, provides a solid surface, resting platform, pad, floormat, or similar device that is large enough for the animal to lie on in a normal manner and can be maintained in a sanitary manner. Under this chapter, shelters whose wire, grid, or slat floors (i) permit the animals' feet to pass through the openings, (ii) sag under the animals' weight, or (iii) otherwise do not protect the animals' feet or toes from injury are not adequate shelter. The outdoor tethering of an animal shall not constitute the provision of adequate shelter (a) unless the animal is safe from predators and well suited and well equipped to tolerate its environment; (b) during the effective period for a hurricane warning or tropical storm warning issued for the area by the National Weather Service; or (c)(1) during a heat advisory issued by a local or state authority, (2) when the actual or effective outdoor temperature is 85 degrees Fahrenheit or higher or 32 degrees Fahrenheit or lower, or (3) during the effective period for a severe weather warning issued for the area by the National Weather Service, including a winter storm, tornado, or severe thunderstorm warning, unless an animal control officer, having inspected an animal's individual circumstances in clause (c)(1), (2), or (3), has determined the animal to be safe from predators and well suited and well equipped to tolerate its environment.

"Adequate space" means sufficient space to allow each animal to (i) easily stand, sit, lie, turn about, and make all other normal body movements in a comfortable, normal position for the animal and (ii) interact safely with other animals in the enclosure. When an animal is tethered, "adequate space" means that the tether to which the animal is attached permits the above actions and is appropriate to the age

59 and size of the animal; is attached to the animal by a properly applied collar, halter, or harness that is  
60 configured so as to protect the animal from injury and prevent the animal or tether from becoming  
61 entangled with other objects or animals, or from extending over an object or edge that could result in  
62 the strangulation or injury of the animal; is at least 15 feet in length or four times the length of the  
63 animal, as measured from the tip of its nose to the base of its tail, whichever is greater, except when the  
64 animal is being walked on a leash or is attached by a tether to a lead line or when an animal control  
65 officer, having inspected an animal's individual circumstances, has determined that in such an individual  
66 case, a tether of at least 10 feet or three times the length of the animal, but shorter than 15 feet or four  
67 times the length of the animal, makes the animal more safe, more suited, and better equipped to tolerate  
68 its environment than a longer tether; does not, by its material, size, or weight or any other characteristic,  
69 cause injury or pain to the animal; does not weigh more than one-tenth of the animal's body weight; and  
70 does not have weights or other heavy objects attached to it. The walking of an animal on a leash by its  
71 owner shall not constitute the tethering of the animal for the purpose of this definition. When freedom  
72 of movement would endanger the animal, temporarily and appropriately restricting movement of the  
73 animal according to professionally accepted standards for the species is considered provision of adequate  
74 space. The provisions of this definition that relate to tethering shall not apply to agricultural animals.

75 "Adequate water" means provision of and access to clean, fresh, potable water of a drinkable  
76 temperature that is provided in a suitable manner, in sufficient volume, and at suitable intervals  
77 appropriate for the weather and temperature, to maintain normal hydration for the age, species,  
78 condition, size and type of each animal, except as prescribed by a veterinarian or as dictated by  
79 naturally occurring states of hibernation or fasting normal for the species; and is provided in clean,  
80 durable receptacles that are accessible to each animal and are placed so as to minimize contamination of  
81 the water by excrement and pests or an alternative source of hydration consistent with generally

Nothing in this section shall be construed to prohibit confinement of other companion animals in such a shelter. The governing body of any county or city need not own the facility required by this section but may contract for its establishment with a private group or in conjunction with one or more other local governing bodies. The governing body shall require that:

1. The public animal shelter shall be accessible to the public at reasonable hours during the week;

2. The public animal shelter shall obtain a signed statement from each of its directors, operators, staff, or animal caregivers specifying that each individual has never been convicted of animal cruelty, neglect, or abandonment, and each shelter shall update such statement as changes occur;

3. If a person contacts the public animal shelter inquiring about a lost companion animal, the shelter shall advise the person if the companion animal is confined at the shelter or if a companion animal of similar description is confined at the shelter;

4. The public animal shelter shall maintain a written record of the information on each companion animal submitted to the shelter by a private animal shelter in accordance with subsection D of § 3.2-6548 for a period of 30 days from the date the information is received by the shelter. If a person contacts the shelter inquiring about a lost companion animal, the shelter shall check its records and make available to such person any information submitted by a private animal shelter or allow such person inquiring about a lost animal to view the written records;

5. The public animal shelter shall maintain a written record of the information on each companion animal submitted to the shelter by a releasing agency other than a public or private animal shelter in accordance with subdivision F 2 of § 3.2-6549 for a period of 30 days from the date the information is received by the shelter. If a person contacts the shelter inquiring about a lost companion animal, the shelter shall check its records and make available to such person any information submitted by such releasing agency or allow such person inquiring about a lost companion animal to view the written records; and

The public animal shelter shall maintain a written record of the information on each companion animal submitted to the shelter by an individual in accordance with subdivision A 2 of § 3.2-6551 for a period of 30 days from the date the information is received by the shelter. If a person contacts the shelter inquiring about a lost companion animal, the shelter shall check its records and make available to such person any information submitted by the individual or allow such person inquiring about a lost companion animal to view the written records.

C. An animal confined pursuant to this section, *other than a community cat brought to a public animal shelter pursuant to a TNR program*, shall be kept for a period of not less than five days, such stray hold period to commence on the day immediately following the day the animal is initially confined in the facility, unless sooner claimed by the rightful owner thereof.

The operator or custodian of the public animal shelter shall make a reasonable effort to ascertain whether the animal has a collar, tag, license, tattoo, or other form of identification. If such identification is found on the animal, the animal shall be held for an additional five-day stray hold period, unless sooner claimed by the rightful owner. If the rightful owner of the animal can be readily identified, the operator or custodian of the shelter shall make a reasonable effort to notify the owner of the animal's

305 confinement within the next 48 hours following its confinement.

306 During the stray hold period that an animal is confined pursuant to this subsection, the operator or  
307 custodian of the public animal shelter may vaccinate the animal to prevent the risk of communicable  
308 diseases, provided that (i) all vaccines are administered in accordance with a protocol approved by a  
309 licensed veterinarian and (ii) rabies vaccines are administered by a licensed veterinarian or licensed  
310 veterinary technician under the immediate direction and supervision of a licensed veterinarian in  
311 accordance with § 3.2-6521. Indoor enclosures used to confine the animal during the applicable stray  
312 hold period shall be constructed of materials that are durable, nonporous, impervious to moisture, and  
313 able to be thoroughly cleaned and disinfected. During the applicable stray hold period, the operator or  
314 custodian shall provide the animal with adequate care, including reasonable access to outdoor areas to  
315 ensure that the animal has adequate exercise and adequate space.

316 If any animal confined pursuant to this section is claimed by its rightful owner, such owner may be  
317 charged with the actual expenses incurred in keeping the animal impounded. In addition to this and any  
318 other fees that might be levied, the locality may, after a public hearing, adopt an ordinance to charge the  
319 owner of an animal a fee for impoundment and increased fees for subsequent impoundments of the same  
320 animal.

321 D. If an animal confined pursuant to this section has not been claimed upon expiration of the  
322 applicable stray hold period as provided by subsection C, it shall be deemed abandoned and become the  
323 property of the public animal shelter.

324 For any animal not subject to a stray hold period, including an animal for whom the stray hold  
325 period has ended, the operator or custodian of the public animal shelter shall confine the animal in an  
326 enclosure that can safely house and allow for adequate separation of animals of different species, sexes,  
327 ages, and temperaments. Such enclosure may have both an outdoor area and an indoor area. If the  
328 facility has an outdoor area, the facility shall ensure that the outdoor areas do not present conditions that  
329 would be detrimental to the health of the animal. Indoor areas shall have a solid floor. Each operator or  
330 custodian shall ensure adequate access to water, food, and a resting platform, bedding, or perch as  
331 appropriate to the animal's species, age, and condition. Any regulation by the Board that applies to an  
332 animal not subject to a stray hold period shall not be so restrictive as to fail to allow for adequate care,  
333 adequate exercise, and adequate space, including meaningful indoor and outdoor recreation for the  
334 animal.

335 Such animal may be euthanized in accordance with the methods approved by the State Veterinarian  
336 or disposed of by the methods set forth in subdivisions D 1 through 5. No shelter shall release more  
337 than two animals or a family of animals during any 30-day period to any one person under subdivision  
338 D 2, 3, or 4.

339 1. Release to any humane society, public or private animal shelter, or other releasing agency within  
340 the Commonwealth, provided that each humane society, animal shelter, or other releasing agency obtains  
341 a signed statement from each of its directors, operators, staff, or animal caregivers specifying that each  
342 individual has never been convicted of animal cruelty, neglect, or abandonment and updates such  
343 statements as changes occur;

344 2. Adoption by a resident of the county or city where the shelter is operated and who will pay the  
345 required license fee, if any, on such animal, provided that such resident has read and signed a statement  
346 specifying that he has never been convicted of animal cruelty, neglect, or abandonment;

347 3. Adoption by a resident of an adjacent political subdivision of the Commonwealth, if the resident  
348 has read and signed a statement specifying that he has never been convicted of animal cruelty, neglect,  
349 or abandonment;

350 4. Adoption by any other person, provided that such person has read and signed a statement  
351 specifying that he has never been convicted of animal cruelty, neglect, or abandonment and provided  
352 that no dog or cat may be adopted by any person who is not a resident of the county or city where the  
353 shelter is operated, or of an adjacent political subdivision, unless the dog or cat is first sterilized, and the  
354 shelter may require that the sterilization be done at the expense of the person adopting the dog or cat; or

355 5. Release for the purposes of adoption or euthanasia only, to an animal shelter, or any other  
356 releasing agency located in and lawfully operating under the laws of another state, provided that such  
357 animal shelter, or other releasing agency: (i) maintains records that would comply with § 3.2-6557; (ii)  
358 requires that adopted dogs and cats be sterilized; (iii) obtains a signed statement from each of its  
359 directors, operators, staff, and animal caregivers specifying that each individual has never been convicted  
360 of animal cruelty, neglect, or abandonment, and updates such statement as changes occur; and (iv) has  
361 provided to the public or private animal shelter or other releasing agency within the Commonwealth a  
362 statement signed by an authorized representative specifying the entity's compliance with clauses (i)  
363 through (iii), and the provisions of adequate care and performance of humane euthanasia, as necessary in  
364 accordance with the provisions of this chapter.

365 For purposes of recordkeeping, release of an animal by a public animal shelter to a public or private  
366 animal shelter or other releasing agency shall be considered a transfer and not an adoption. If the animal

is not first sterilized, the responsibility for sterilizing the animal transfers to the receiving entity.

Any proceeds deriving from the gift, sale, or delivery of such animals shall be paid directly to the treasurer of the locality. Any proceeds deriving from the gift, sale, or delivery of such animals by a public or private animal shelter or other releasing agency shall be paid directly to the clerk or treasurer of the animal shelter or other releasing agency for the expenses of the society and expenses incident to any agreement concerning the disposing of such animal. No part of the proceeds shall accrue to any individual except for the aforementioned purposes.

E. Nothing in this section shall prohibit the immediate euthanasia of a critically injured, critically ill, or unweaned animal for humane purposes. Any animal euthanized pursuant to the provisions of this chapter shall be euthanized by one of the methods prescribed or approved by the State Veterinarian.

F. Nothing in this section shall prohibit the immediate euthanasia or disposal by the methods listed in subdivisions D 1 through 5 of an animal that has been released to a public or private animal shelter, other releasing agency, or animal control officer by the animal's rightful owner after the rightful owner has read and signed a statement: (i) surrendering all property rights in such animal; (ii) stating that no other person has a right of property in the animal; and (iii) acknowledging that the animal may be immediately euthanized or disposed of in accordance with subdivisions D 1 through 5.

G. Nothing in this section shall prohibit any feral dog or feral cat not bearing a collar, tag, tattoo, or other form of identification that, based on the written statement of a disinterested person, exhibits behavior that poses a risk of physical injury to any person confining the animal, from being euthanized after being kept for a period of not less than three days, at least one of which shall be a full business day, such period to commence on the day the animal is initially confined in the facility, unless sooner claimed by the rightful owner. The statement of the disinterested person shall be kept with the animal as required by § 3.2-6557. For purposes of this subsection, a disinterested person shall not include a person releasing or reporting the animal.

H. No public animal shelter shall place a companion animal in a foster home with a foster care provider unless the foster care provider has read and signed a statement specifying that he has never been convicted of animal cruelty, neglect, or abandonment, and each shelter shall update such statement as changes occur. The shelter shall maintain the original statement and any updates to such statement in accordance with this chapter and for at least so long as the shelter has an affiliation with the foster care provider.

I. A public animal shelter that places a companion animal in a foster home with a foster care provider shall ensure that the foster care provider complies with § 3.2-6503.

J. If a public animal shelter finds a direct and immediate threat to a companion animal placed with a foster care provider, it shall report its findings to the animal control agency in the locality where the foster care provider is located.

K. The governing body shall require that the public animal shelter be operated in accordance with regulations issued by the Board. If this chapter or such regulations are violated, the locality may be assessed a civil penalty by the Board or its designee in an amount that does not exceed \$1,000 per violation. Each day of the violation is a separate offense. In determining the amount of any civil penalty, the Board or its designee shall consider (i) the history of previous violations at the shelter; (ii) whether the violation has caused injury to, death or suffering of, an animal; and (iii) the demonstrated good faith of the locality to achieve compliance after notification of the violation. All civil penalties assessed under this section shall be recovered in a civil action brought by the Attorney General in the name of the Commonwealth. Such civil penalties shall be paid into a special fund in the state treasury to the credit of the Department to be used in carrying out the purposes of this chapter.

L. If this chapter or any laws governing public animal shelters are violated, the Commissioner may bring an action to enjoin the violation or threatened violation of this chapter or the regulations pursuant thereto regarding public animal shelters, in the circuit court where the shelter is located. The Commissioner may request the Attorney General to bring such an action, when appropriate.
