2023	\$395,991	GF
2024	\$395,991	GF
2025	\$395,991	GF

**8. Fiscal Implications:** This bill makes several changes to how the Virginia Department of Education (VDOE) would operate its special education program. Some changes could be absorbed by existing staff and some would require additional resources.

This bill would require VDOE to develop a training module for each individual who participates in an IEP meeting. VDOE will need to ensure that the model is properly aligned and can add functions to capture documentation related to completion of training. VDOE estimates that it would need \$75,000 in FY2022 to develop this module.

VDOE would also be required to develop and implement a statewide strategic plan for recruiting and retaining special education teachers. VDOE would require three additional staff members to complete this provision. One staff member would be needed to coordinate the development, evaluation and maintenance of the strategic plan, as well as collect necessary data from school divisions. Two additional staff members would be necessary to coordinate and implement the strategic plan. VDOE estimates that the annual cost for these additional staff members would be \$395,991.

Finally the bill would require VDOE to implement a clear and comprehensive plan to improve its approach to monitoring Virginia's special education system. VDOE would need additional staff to create the report. VDOE estimates that it would need \$30,000 in FY2022 for contract assistance and to engage stakeholders.

The total state fiscal impact of this bill would be \$500,991 in FY2022 and \$395,991 annually, beginning in FY2023. Any impact to local school divisions is indeterminate.
