

23103621D

HOUSE BILL NO. 2405

Offered January 17, 2023

A *BILL to amend and reenact § 22.1-253.13:4 of the Code of Virginia, relating to high school graduation requirements; passing score on select questions from the U.S. Naturalization Test.*

Patrons—Ware, Tata, Byron, Campbell, E.H., Edmunds, Fowler, Greenhalgh, Head, Hodges, Knight, McGuire, Robinson, Runion, Walker, Webert, Williams and Wyatt

Referred to Committee on Education

Be it enacted by the General Assembly of Virginia:

1. That § 22.1-253.13:4 of the Code of Virginia is amended and reenacted as follows:

§ 22.1-253.13:4. Standard 4. Student achievement and graduation requirements.

A. Each local school board shall award diplomas to all secondary school students, including students who transfer from nonpublic schools or from home instruction, who meet the requirements prescribed by the Board and meet such other requirements as may be prescribed by the local school board and approved by the Board. Provisions shall be made to facilitate the transfer and appropriate grade placement of students from other public secondary schools, from nonpublic schools, or from home instruction as outlined in the standards for accreditation. The standards for accreditation shall include provisions relating to the completion of graduation requirements through Virtual Virginia. Further, reasonable accommodation to meet the requirements for diplomas shall be provided for otherwise qualified students with disabilities as needed.

In addition, each local school board may devise, vis-a-vis the award of diplomas to secondary school students, a mechanism for calculating class rankings that takes into consideration whether the student has taken a required class more than one time and has had any prior earned grade for such required class expunged.

Each local school board shall notify the parents of rising eleventh and twelfth grade students of (i) the requirements for graduation pursuant to the standards for accreditation and (ii) the requirements that have yet to be completed by the individual student.

B. Students identified as disabled who complete the requirements of their individualized education programs and meet certain requirements prescribed by the Board pursuant to regulations but do not meet the requirements for any named diploma shall be awarded Applied Studies diplomas by local school boards. The Board shall develop and implement statewide requirements for earning an Applied Studies diploma for implementation at the beginning of the 2022-2023 school year.

Each local school board shall notify the parent of such students with disabilities who have an individualized education program and who fail to meet the graduation requirements of the student's right to a free and appropriate education to age 21, inclusive, pursuant to Article 2 (§ 22.1-213 et seq.) of Chapter 13.

The Department shall develop guidance, in multiple languages, for students and parents conveying (i) the limitations of the applied studies diploma, (ii) key curriculum and testing decisions that reduce the likelihood that a student will be able to obtain a standard diploma, and (iii) a statement that the pursuit of an applied studies diploma may preclude a student's ability to pursue a standard diploma.

Each local school board shall provide guidance from the Department to parents of students with disabilities regarding the Applied Studies diploma and its limitations at a student's annual individualized education program meeting corresponding to grades three through 12 when curriculum or statewide assessment decisions are being made that impact the type of diploma for which the student can qualify.

C. Students who have completed a prescribed course of study as defined by the local school board shall be awarded certificates of program completion by local school boards if they are not eligible to receive a Board-approved diploma.

Each local school board shall provide notification of the right to a free public education for students who have not reached 20 years of age on or before August 1 of the school year, pursuant to Chapter 1 (§ 22.1-1 et seq.), to the parent of students who fail to graduate or who have failed to achieve graduation requirements as provided in the standards for accreditation. If such student who does not graduate or complete such requirements is a student for whom English is a second language, the local school board shall notify the parent of the student's opportunity for a free public education in accordance with § 22.1-5.

D. In establishing graduation requirements, the Board shall:

1. Develop and implement, in consultation with stakeholders representing elementary and secondary education, higher education, and business and industry in the Commonwealth and including parents,

INTRODUCED

HB2405

58 policymakers, and community leaders in the Commonwealth, a Profile of a Virginia Graduate that
59 identifies the knowledge and skills that students should attain during high school in order to be
60 successful contributors to the economy of the Commonwealth, giving due consideration to critical
61 thinking, creative thinking, collaboration, communication, and citizenship.

62 2. Emphasize the development of core skill sets in the early years of high school.

63 3. Establish multiple paths toward college and career readiness for students to follow in the later
64 years of high school. Each such pathway shall include opportunities for internships, externships, and
65 credentialing.

66 4. Provide for the selection of integrated learning courses meeting the Standards of Learning and
67 approved by the Board to satisfy graduation requirements, which shall include Standards of Learning
68 testing, as necessary.

69 5. Require students to complete at least one course in fine or performing arts or career and technical
70 education, one course in United States and Virginia history, and two sequential elective courses chosen
71 from a concentration of courses selected from a variety of options that may be planned to ensure the
72 completion of a focused sequence of elective courses that provides a foundation for further education or
73 training or preparation for employment.

74 6. Require that students (i) complete an Advanced Placement, honors, International Baccalaureate, or
75 dual enrollment course; (ii) complete a high-quality work-based learning experience, as defined by the
76 Board; or (iii) earn a career and technical education credential that has been approved by the Board,
77 except when a career and technical education credential in a particular subject area is not readily
78 available or appropriate or does not adequately measure student competency, in which case the student
79 shall receive satisfactory competency-based instruction in the subject area to earn credit. The career and
80 technical education credential, when required, could include the successful completion of an industry
81 certification, a state licensure examination, a national occupational competency assessment, the Armed
82 Services Vocational Aptitude Battery, or the Virginia workplace readiness skills assessment. The
83 Department shall develop, maintain, and make available to each local school board a catalogue of the
84 testing accommodations available to English language learners for each such certification, examination,
85 assessment, and battery. Each local school board shall develop and implement policies to require each
86 high school principal or his designee to notify each English language learner of the availability of such
87 testing accommodations prior to the student's participation in any such certification, examination,
88 assessment, or battery.

89 7. Require students to be trained in emergency first aid, cardiopulmonary resuscitation, and the use
90 of automated external defibrillators, including hands-on practice of the skills necessary to perform
91 cardiopulmonary resuscitation.

92 8. Make provision in its regulations for students with disabilities to earn a diploma.

93 9. Require students to complete one virtual course, which may be a noncredit-bearing course.

94 10. Provide that students who complete elective classes into which the Standards of Learning for any
95 required course have been integrated and achieve a passing score on the relevant Standards of Learning
96 test for the relevant required course receive credit for such elective class.

97 11. Establish a procedure to facilitate the acceleration of students that allows qualified students, with
98 the recommendation of the division superintendent, without completing the 140-hour class, to obtain
99 credit for such class upon demonstrating mastery of the course content and objectives and receiving a
100 passing score on the relevant Standards of Learning assessment. Nothing in this section shall preclude
101 relevant school division personnel from enforcing compulsory attendance in public schools.

102 12. Provide for the award of credit for passing scores on industry certifications, state licensure
103 examinations, and national occupational competency assessments approved by the Board.

104 School boards shall report annually to the Board the number of Board-approved industry
105 certifications obtained, state licensure examinations passed, national occupational competency
106 assessments passed, Armed Services Vocational Aptitude Battery assessments passed, and Virginia
107 workplace readiness skills assessments passed, and the number of career and technical education
108 completers who graduated. These numbers shall be reported as separate categories on the School
109 Performance Report Card.

110 For the purposes of this subdivision, "career and technical education completer" means a student who
111 has met the requirements for a career and technical concentration or specialization and all requirements
112 for high school graduation or an approved alternative education program.

113 In addition, the Board may:

114 a. For the purpose of awarding credit, approve the use of additional or substitute tests for the
115 correlated Standards of Learning assessment, such as academic achievement tests, industry certifications,
116 or state licensure examinations; and

117 b. Permit students completing career and technical education programs designed to enable such
118 students to pass such industry certification examinations or state licensure examinations to be awarded,
119 upon obtaining satisfactory scores on such industry certification or licensure examinations, appropriate

credit for one or more career and technical education classes into which relevant Standards of Learning for various classes taught at the same level have been integrated. Such industry certification and state licensure examinations may cover relevant Standards of Learning for various required classes and may, at the discretion of the Board, address some Standards of Learning for several required classes.

13. Provide for the waiver of certain graduation requirements (i) upon the Board's initiative or (ii) at the request of a local school board. Such waivers shall be granted only for good cause and shall be considered on a case-by-case basis.

14. Consider all computer science course credits earned by students to be science course credits, mathematics course credits, or career and technical education credits. The Board shall develop guidelines addressing how computer science courses can satisfy graduation requirements.

15. Permit local school divisions to waive the requirement for students to receive 140 clock hours of instruction upon providing the Board with satisfactory proof, based on Board guidelines, that the students for whom such requirements are waived have learned the content and skills included in the relevant Standards of Learning.

16. Provide for the award of verified units of credit for a satisfactory score, as determined by the Board, on the Preliminary ACT (PreACT) or Preliminary SAT/National Merit Scholarship Qualifying Test (PSAT/NMSQT) examination.

17. Permit students to exceed a full course load in order to participate in courses offered by an institution of higher education that lead to a degree, certificate, or credential at such institution.

18. Permit local school divisions to waive the requirement for students to receive 140 clock hours of instruction after the student has completed the course curriculum and relevant Standards of Learning end-of-course assessment, or Board-approved substitute, provided that such student subsequently receives instruction, coursework, or study toward an industry certification approved by the local school board.

19. Permit any English language learner who previously earned a sufficient score on an Advanced Placement or International Baccalaureate foreign language examination or an SAT II Subject Test in a foreign language to substitute computer coding course credit for any foreign language course credit required to graduate, except in cases in which such foreign language course credit is required to earn an advanced diploma offered by a nationally recognized provider of college-level courses.

20. Permit a student who is pursuing an advanced diploma and whose individualized education program specifies a credit accommodation for world language to substitute two standard units of credit in computer science for two standard units of credit in a world language. For any student that elects to substitute a credit in computer science for credit in world language, his or her school counselor must provide notice to the student and parent or guardian of possible impacts related to college entrance requirements.

21. Require, except in the case of a high school student whose individualized education program indicates otherwise, each high school student to take and correctly answer at least 70 percent of the questions on a test composed of at least 25 but not more than 50 of the questions on the civics portion of the U.S. Naturalization Test in order to graduate high school with a standard or advanced studies diploma. High school students may take such test at any time during grades nine through 12 and as many times during such period as necessary to achieve the minimum 70 percent passing score.

E. In the exercise of its authority to recognize exemplary performance by providing for diploma seals:

1. The Board shall develop criteria for recognizing exemplary performance in career and technical education programs by students who have completed the requirements for a Board of Education-approved diploma and shall award seals on the diplomas of students meeting such criteria.

2. The Board shall establish criteria for awarding a diploma seal for science, technology, engineering, and mathematics (STEM) for the Board-approved diplomas. The Board shall consider including criteria for (i) relevant coursework; (ii) technical writing, reading, and oral communication skills; (iii) relevant training; and (iv) industry, professional, and trade association national certifications.

3. The Board shall establish criteria for awarding a diploma seal for excellence in civics education and understanding of our state and federal constitutions and the democratic model of government for the Board-approved diplomas. The Board shall consider including criteria for (i) successful completion of history, government, and civics courses, including courses that incorporate character education; (ii) voluntary participation in community service or extracurricular activities that includes the types of activities that shall qualify as community service and the number of hours required; and (iii) related requirements as it deems appropriate.

4. The Board shall establish criteria for awarding a diploma seal of biliteracy to any student who demonstrates proficiency in English and at least one other language for the Board-approved diplomas. The Board shall consider criteria including the student's (i) score on a College Board Advanced Placement foreign language examination, (ii) score on an SAT II Subject Test in a foreign language, (iii) proficiency level on an ACTFL Assessment of Performance toward Proficiency in Languages (AAPPL)

181 measure or another nationally or internationally recognized language proficiency test, or (iv) cumulative
182 grade point average in a sequence of foreign language courses approved by the Board.

183 F. The Board shall establish, by regulation, requirements for the award of a general achievement
184 adult high school diploma for those persons who are not subject to the compulsory school attendance
185 requirements of § 22.1-254 and have (i) achieved a passing score on a high school equivalency
186 examination approved by the Board; (ii) successfully completed an education and training program
187 designated by the Board; (iii) earned a Board-approved career and technical education credential such as
188 the successful completion of an industry certification, a state licensure examination, a national
189 occupational competency assessment, the Armed Services Vocational Aptitude Battery, or the Virginia
190 workplace readiness skills assessment; and (iv) satisfied other requirements as may be established by the
191 Board for the award of such diploma.

192 G. To ensure the uniform assessment of high school graduation rates, the Board shall collect,
193 analyze, report, and make available to the public high school graduation and dropout data using a
194 formula prescribed by the Board.

195 H. The Board shall also collect, analyze, report, and make available to the public high school
196 graduation and dropout data using a formula that excludes any student who fails to graduate because
197 such student is in the custody of the Department of Corrections, the Department of Juvenile Justice, or
198 local law enforcement. For the purposes of the Standards of Accreditation, the Board shall use the
199 graduation rate required by this subsection.

200 I. The Board may promulgate such regulations as may be necessary and appropriate for the
201 collection, analysis, and reporting of such data required by subsections G and H.
