**1. That §§ 51.1-142.2 and 55.1-2544 of the Code of Virginia are amended and reenacted as follows:**

**§ 51.1-142.2. Prior service or membership credit for certain members; service credit for accumulated sick leave.**

Certain members may purchase credit for service as provided in this section.

A. 1. Any member in service may purchase service credit from the following categories of service or leave: (i) leave of absence for educational purposes that was previously approved by the member's employer; (ii) leave of absence for a serious health condition of the member or of an immediate family member, all as defined in the Family and Medical Leave Act of 1993, 29 U.S.C. § 2601 et seq., as amended, and previously certified by the member's employer; (iii) up to one year of service credit per occurrence of leave for any unpaid leave of absence due to the birth, adoption, or death of a qualifying child, as defined in § 51.1-500; (iv) service as a full-time employee of another state, a public school system of another state, or a political subdivision of the Commonwealth or another state, as certified by such state, public school system, or political subdivision; (v) full-time service of a political subdivision of this state not credited to the member under an agreement as provided for in § 51.1-143.1, as certified by such political subdivision; (vi) full-time civilian service of the United States; (vii) full-time service at a private institution of higher education if the private institution is merged with a public institution of higher education and graduates of the private institution are then issued new degrees from the public institution; or (viii) any period of time when the member was employed part time or in a wage position by a participating employer and not otherwise eligible to participate in the retirement system because the member was not an employee as defined in § 51.1-124.3. However, no member in service shall be allowed to purchase more than a total of four years of service credit pursuant to this subdivision.

2. In addition to the service credit that may be purchased under subdivision 1, any member in service may purchase up to four years of service credit for prior active duty military service in the armed forces of the United States, provided that the discharge from a period of active duty status with the armed forces was not dishonorable.

3. The service credit to be credited to a member under this subsection shall be calculated at the ratio of one year, or portion thereof, of service credit to one year, or portion thereof, of service purchased, except for employment service purchased under clause (viii) of subdivision 1, which shall be calculated at the ratio of one month of service credit for each 173 hours of service as certified by the employer.

For each year or portion thereof to be credited at the time of purchase under this subsection, the member shall pay the approximate normal cost of the retirement plan under which the member is covered at the time of such purchase, as determined by the Board in its sole discretion. If the member does not purchase, or enter into a purchase of service credit contract for, the service made available in this subsection within the first 24 months of the member's active service following his first date of hire or the final day of any applicable leave of absence, as applicable, then, for each year or portion thereof to be credited at the time of purchase, the member shall pay the actuarial equivalent cost. To the extent the member becomes inactive during the 24 months following his first date of hire or the final day of any applicable leave of absence, such periods shall not be included in the 24 months of active service.

Except as otherwise required by Chapter 1223 of Title 10 of the United States Code, as amended, no service credit may be purchased under this section if it is included in the calculation of any retirement allowance received or to be received by the member from this or another retirement system, or if there is a balance in a defined contribution account that serves as a primary retirement account related to such service.

For purposes of this subsection, "active duty military service" means full-time service of at least 180 consecutive days in the United States Army, Navy, Air Force, Marines, Coast Guard, or any other distinct branch of the armed services as established by the federal government, or reserve components thereof.

B. Any member in service may purchase all prior service credit for creditable service lost from

59 ceasing to be a member under this chapter, as provided in § 51.1-128, because of the withdrawal of his  
60 accumulated contributions. For each year or portion thereof to be credited at the time of purchase under  
61 this subsection, the member shall pay the withdrawn amount to be purchased plus interest accrued daily  
62 and compounded annually from the date of withdrawal to the date of payment at the assumed rate of  
63 return established by the Board for the actuarial valuation of the retirement system that is in effect at the  
64 time of the purchase. The Board shall develop guidelines and procedures for administering this  
65 subsection.

66 C. Any member in service may purchase service credit for accumulated sick leave on his effective  
67 date of retirement based upon such sums as the employer may provide as payment for any unused sick  
68 leave balances. The cost of service credit purchased under this subsection shall be the actuarial  
69 equivalent cost of such service.

70 D. Any member receiving benefits under the Virginia Workers' Compensation Act (§ 65.2-100 et  
71 seq.) may, in a manner prescribed by the Board and prior to the effective date of retirement, purchase  
72 service that is not reported to the retirement system by the member's employer while the member is  
73 receiving such benefits.

74 For each year or portion thereof to be credited at the time of purchase under this subsection, the  
75 member shall pay the approximate normal cost of the retirement plan under which the member is  
76 covered, as determined by the Board in its sole discretion. If the member does not purchase, or enter  
77 into a purchase of service credit contract for, any service made available in this subsection within the  
78 first 24 months of the member's active service following his first date of hire or the final day of any  
79 applicable leave of absence, then, for each year or portion thereof to be credited at the time of purchase,  
80 the member shall pay the actuarial equivalent cost. To the extent the member becomes inactive during  
81 the 24 months following his first date of hire or the final day of any applicable leave of absence, such  
82 periods shall not be included in the 24 months of active service.

83 E. Payment may be made in a lump sum at the time of purchase or by payroll deduction. Any  
84 number of additional deductions may be permitted at any time. Should any deduction be terminated  
85 before the member purchases the entire period contracted for, the member shall be credited with the  
86 number of full or partial months of service for which full payment has been made. If any deduction is  
87 continued after the entire period has been purchased, the member shall be credited with no more than  
88 the amount of service for which he was eligible and for which he paid, and the excess amount deducted  
89 shall be refunded to the member.

90 F. Any employer may elect to pay an equivalent amount in lieu of all member contributions required  
91 of its employees for the purchase of service credit pursuant to this section. These contributions shall not  
92 be considered wages for purposes of Chapter 7 (§ 51.1-700 et seq.), nor shall they be considered salary  
93 for purposes of this chapter.

94 G. In any case where member and employer contributions, as required under this chapter, were not  
95 made because of an error in the payroll, personnel, or other classification system of an employer  
96 participating in the retirement system, service that has not been credited because of such error may be  
97 purchased on the following basis:

98 1. The most recent three years of service credit shall be purchased, using applicable member and  
99 employer contribution rates and creditable compensation in effect for such period, in a manner and at  
100 the cost prescribed by the Board; and

101 2. All other years of service credit shall be purchased by the employer at an actuarial equivalent cost.

102 H. Any member may receive credit at no cost for service rendered in the armed forces of the United  
103 States provided (i) the member was on leave of absence from a covered position, (ii) the discharge from  
104 a period of active duty with the armed forces was not dishonorable, (iii) the member has not withdrawn  
105 his accumulated contributions, (iv) the member is not disabled or killed while on leave without pay  
106 while performing active duty military service in the armed forces of the United States, and (v) the  
107 member reenters service in a covered position within one year after discharge from the armed forces. In  
108 order to receive such service, the member must complete such forms and other requirements as are  
109 required by the Board and the retirement system.
