Be it enacted by the General Assembly of Virginia:

1. That § 18.2-308.5 of the Code of Virginia is amended and reenacted and that the Code of Virginia is amended by adding a section numbered 18.2-308.5:2 as follows:

§ 18.2-308.5. Manufacture, assemble, import, etc. of plastic firearm prohibited; penalty.

A. It shall be unlawful for any person to knowingly manufacture or assemble, cause to be manufactured or assembled, import, purchase, sell, offer for sale, transfer, or possess (i) any plastic firearm or (ii) any firearm that, after removal of all parts other than a major component, is not detectable as a firearm by the types of detection devices, including X-ray machines, commonly used at airports, government buildings, schools, correctional facilities, and other locations for security screening.

B. As used in this section, "plastic":

"Frame" and "receiver" have the same meanings attributed to them in 18 U.S.C. § 921 et seq. and regulations issued pursuant thereto.

"Major component" means (i) the slide or cylinder, or the frame or receiver, of the firearm or (ii) in the case of a rifle or shotgun, the barrel of the firearm.

"Plastic firearm" means any firearm, including machine guns and sawed-off shotguns as defined in this chapter, containing less than 3.7 ounces of electromagnetically detectable metal in the barrel, slide, cylinder, frame, or receiver of which that, when subjected to inspection by the types of detection devices, including X-ray machines, commonly used at airports, government buildings, schools, correctional facilities, and other locations for security screening, does not generate an image that accurately depicts its shape.

C. A violation of this section shall be punishable as a Class 5 felony.

§ 18.2-308.5:2. Prohibition on unfinished frames or receivers and unserialized firearms; penalties.

A. As used in this section:

"Federal licensee authorized to serialize firearms" means a person, firm, corporation, or other entity that holds any valid federal license that authorizes the person, firm, corporation, or other entity to imprint serial numbers onto firearms and completed or unfinished frames or receivers pursuant to 18 U.S.C. § 921 et seq. and regulations issued pursuant thereto.

"Federally licensed gunsmith, manufacturer, or importer" means a person, firm, corporation, or other entity that holds a valid gunsmith license or license to manufacture or import firearms issued pursuant to 18 U.S.C. § 921 et seq. and regulations issued pursuant thereto.

"Frame" and "receiver" have the same meanings attributed to them in 18 U.S.C. § 921 et seq. and regulations issued pursuant thereto.

"License to manufacture firearms" means a valid license to manufacture firearms issued pursuant to 18 U.S.C. § 921 et seq. and regulations issued pursuant thereto.

"Manufacture or assemble" means to fabricate, construct, fit together component parts of, or otherwise produce a firearm or completed or unfinished frame or receiver, including through additive, subtractive, or other processes.

"Unfinished frame or receiver" means a forging, casting, printing, extrusion, machined body, or similar item that (i) is designed to or may readily be completed, assembled, or otherwise converted to function as a frame or receiver or (ii) is marketed or sold to the public to become or be used as the frame or receiver of a functional firearm once completed, assembled, or otherwise converted. However, "unfinished frame or receiver" does not include a component designed and intended for use in an antique weapon.

"Valid serial number" means a serial number that has been imprinted by a federal licensee authorized to serialize firearms in accordance with federal law, or that has otherwise been assigned to a firearm or completed or unfinished frame or receiver pursuant to the laws of any state or pursuant to 26 U.S.C. § 5801 et seq. and regulations issued pursuant thereto.

B. It is unlawful to knowingly import, purchase, sell, offer for sale, or transfer ownership of any

57 completed or unfinished frame or receiver, unless the completed or unfinished frame or receiver (i) is
 58 deemed to be a firearm pursuant to 18 U.S.C. § 921 et seq. and regulations issued pursuant thereto and
 59 (ii) is imprinted with a valid serial number.

60 C. It is unlawful to knowingly possess a firearm or any completed or unfinished frame or receiver
 61 that is not imprinted with a valid serial number.

62 D. It is unlawful to manufacture or assemble, cause to be manufactured or assembled, import,
 63 purchase, sell, offer for sale, or transfer ownership of any firearm that is not imprinted with a valid
 64 serial number.

65 E. Except as authorized by law, it is unlawful for a person who does not have a valid federal license
 66 to manufacture or assemble firearms to sell or transfer ownership of a firearm if (i) the person
 67 manufactured or assembled the firearm without a valid license to manufacture firearms, (ii) the person
 68 knowingly caused the firearm to be manufactured or assembled by another person who does not have a
 69 valid federal license to manufacture firearms, or (iii) the person is aware that the firearm was
 70 manufactured or assembled by another person who does not have a valid federal license to manufacture
 71 firearms.

72 F. A federal firearms licensee may serialize a firearm or frame or receiver of a firearm, including a
 73 finished or unfinished frame or receiver, by imprinting a serial number on the firearm, frame, or
 74 receiver. To serialize a firearm, frame, or receiver, the dealer or other licensee shall imprint on the
 75 firearm, frame, or receiver a serial number beginning with the dealer's or licensee's abbreviated federal
 76 firearms license number, which is the first three and last five digits of the license number, followed by a
 77 hyphen, before a unique identification number (12345678-(number)). The serial number shall not be
 78 duplicated on any other firearm, frame, or receiver serialized by the licensee and shall be imprinted in
 79 a manner that complies with the requirements in federal law for imprinting a serial number on a
 80 firearm, including the minimum size and depth of the serial number and that the serial number is not
 81 susceptible to being readily obliterated, altered, or removed.

82 The federal firearms licensee shall retain a record concerning a firearm, frame, or receiver
 83 serialized by the licensee that complies with the requirements under federal law for the sale of a
 84 firearm. In addition to any record required by federal law, a federal firearms licensee that imprints a
 85 unique serial number on a firearm, frame, or receiver pursuant to this subsection shall make a record at
 86 the time of the transaction of each transaction involving serializing a firearm, frame, or receiver and
 87 keep that record. The record shall include the following information: the date, name, age, and residence
 88 of any person to whom the item is transferred and the unique serial number imprinted on the firearm,
 89 frame, or receiver.

90 G. A violation of this section is punishable as a Class 1 misdemeanor. A second or subsequent
 91 violation of this section is punishable as a Class 4 felony.

92 H. The provisions of subsection B or C shall not apply to any person possessing or receiving the
