2024 SESSION

ENROLLED

[S 379]

1

VIRGINIA ACTS OF ASSEMBLY - CHAPTER

2 An Act to amend and reenact §§ 22.1-207, 22.1-253.13:1, as it shall become effective, and 22.1-279.9 of
 3 the Code of Virginia, relating to public high schools; research-based hazing prevention instruction.

4 5

9

Approved

6 Be it enacted by the General Assembly of Virginia:

7 1. That §§ 22.1-207, 22.1-253.13:1, as it shall become effective, and 22.1-279.9 of the Code of 8 Virginia are amended and reenacted as follows:

§ 22.1-207. Physical and health education.

10 A. Physical and health education shall be emphasized throughout the public school curriculum by lessons, drills, and physical exercises, and all pupils in the public elementary, middle, and high schools 11 12 shall receive as part of the educational program such health instruction and physical training as shall be 13 prescribed by the Board of Education and approved by the State Board of Health. Such health instruction shall incorporate standards that recognize the multiple dimensions of health by including 14 15 mental health and the relationship of physical and mental health so as to enhance student understanding, attitudes, and behavior that promote health, well-being, and human dignity. Such health instruction may 16 17 include an age-appropriate program of instruction on the safe use of and risks of abuse of prescription 18 drugs that is consistent with curriculum guidelines developed by the Board and approved by the State 19 Board of Health.

B. The Board shall develop Standards of Learning and curriculum guidelines for research-based
hazing prevention instruction to be provided as a part of physical or health education instruction
provided to students in grade nine or 10. Such Standards of Learning and curriculum guidelines for
such research-based hazing prevention instruction shall include age-appropriate, extensive, and current
education about hazing, including (i) examples of hazing; (ii) the dangers of hazing, including the
consequences of alcohol intoxication; and (iii) school policies and laws relating to hazing, including
criminal penalties and bystander intervention.

C. Each local school board shall provide as a part of physical or health education instruction
provided to students in grade nine or 10 research-based hazing prevention instruction in accordance
with the Standards of Learning and curriculum guidelines developed by the Board pursuant to
subsection B. Such research-based hazing prevention instruction shall be offered in person, provided
that each local school board shall provide options for virtual participation for any student who is
enrolled in an online or virtual physical or health education program.

§ 22.1-253.13:1. (For effective date, see 2022 Acts cc. 549, 550, cl. 2) Standard 1. Instructional
 programs supporting the Standards of Learning and other educational objectives.

35 A. The General Assembly and the Board believe that the fundamental goal of the public schools of 36 the Commonwealth must be to enable each student to develop the skills that are necessary for success in school, preparation for life, and reaching their full potential. The General Assembly and the Board find 37 38 that the quality of education is dependent upon the provision of (i) the appropriate working environment, 39 benefits, and salaries necessary to ensure the availability of high-quality instructional personnel; (ii) the 40 appropriate learning environment designed to promote student achievement; (iii) quality instruction that 41 enables each student to become a productive and educated citizen of Virginia and the United States of 42 America; and (iv) the adequate commitment of other resources. In keeping with this goal, the General 43 Assembly shall provide for the support of public education as set forth in Article VIII, § 1 of the 44 Constitution of Virginia.

B. The Board shall establish educational objectives known as the Standards of Learning, which shall
form the core of Virginia's educational program, and other educational objectives, which together are
designed to ensure the development of the skills that are necessary for success in school and for
preparation for life in the years beyond. At a minimum, the Board shall establish Standards of Learning
for English, mathematics, science, and history and social science. The Standards of Learning shall not be
construed to be regulations as defined in § 2.2-4001.

The Board shall seek to ensure that the Standards of Learning are consistent with a high-quality foundation educational program. The Standards of Learning shall include, but not be limited to, the basic skills of communication (listening, speaking, reading, and writing); computation and critical reasoning, including problem solving and decision making; proficiency in the use of computers and related technology; computer science and computational thinking, including computer coding; and the skills to manage personal finances and to make sound financial decisions. SB379ER

57 The English Standards of Learning for reading in kindergarten through grade eight shall align with 58 evidence-based literacy instruction and science-based reading research.

The Standards of Learning in all subject areas shall be subject to regular review and revision to maintain rigor and to reflect a balance between content knowledge and the application of knowledge in preparation for eventual employment and lifelong learning. The Board shall establish a regular schedule, in a manner it deems appropriate, for the review, and revision as may be necessary, of the Standards of Learning in all subject areas. Such review of each subject area shall occur at least once every seven years. Nothing in this section shall be construed to prohibit the Board from conducting such review and revision on a more frequent basis.

To provide appropriate opportunity for input from the general public, teachers, and local school boards, the Board shall conduct public hearings prior to establishing revised Standards of Learning. Thirty days prior to conducting such hearings, the Board shall give notice of the date, time, and place of the hearings to all local school boards and any other persons requesting to be notified of the hearings and publish notice of its intention to revise the Standards of Learning in the Virginia Register of Regulations. Interested parties shall be given reasonable opportunity to be heard and present information prior to final adoption of any revisions of the Standards of Learning.

73 In addition, the Department shall make available and maintain a website, either separately or through 74 an existing website utilized by the Department, enabling public elementary, middle, and high school 75 educators to submit recommendations for improvements relating to the Standards of Learning, when 76 under review by the Board according to its established schedule, and related assessments required by the 77 Standards of Quality pursuant to this chapter. Such website shall facilitate the submission of 78 recommendations by educators.

79 School boards shall implement the Standards of Learning or objectives specifically designed for their
80 school divisions that are equivalent to or exceed the Board's requirements. Students shall be expected to
81 achieve the educational objectives established by the school division at appropriate age or grade levels.
82 The curriculum adopted by the local school division shall be aligned to the Standards of Learning.

83 The Board shall include in the Standards of Learning for history and social science the study of
 84 contributions to society of diverse people. For the purposes of this subsection, "diverse" includes
 85 consideration of disability, ethnicity, race, and gender.

The Board shall include in the Standards of Learning for health instruction in emergency first aid, 86 87 cardiopulmonary resuscitation, and the use of an automated external defibrillator, including hands-on 88 practice of the skills necessary to perform cardiopulmonary resuscitation. Such instruction shall be based 89 on the current national evidence-based emergency cardiovascular care guidelines for cardiopulmonary 90 resuscitation and the use of an automated external defibrillator, such as a program developed by the 91 American Heart Association or the American Red Cross. No teacher who is in compliance with 92 subdivision D 3 of § 22.1-298.1 shall be required to be certified as a trainer of cardiopulmonary resuscitation to provide instruction for non-certification. 93

94 The Board shall include in the Standards of Learning for physical and health education for grade
95 nine or 10 research-based hazing prevention instruction, in accordance with the Standards of Learning
96 and curriculum guidelines for research-based hazing prevention instruction developed by the Board
97 pursuant to subsection B of § 22.1-207.

With such funds as are made available for this purpose, the Board shall regularly review and revise
the competencies for career and technical education programs to require the full integration of English,
mathematics, science, and history and social science Standards of Learning. Career and technical
education programs shall be aligned with industry and professional standard certifications, where they
exist.

103 The Board shall establish content standards and curriculum guidelines for courses in career 104 investigation in elementary school, middle school, and high school. Each school board shall (i) require 105 each middle school student to take at least one course in career investigation or (ii) select an alternate 106 means of delivering the career investigation course to each middle school student, provided that such 107 alternative is equivalent in content and rigor and provides the foundation for such students to develop their academic and career plans. Any school board may require (a) such courses in career investigation 108 109 at the high school level as it deems appropriate, subject to Board approval as required in subsection A 110 of § 22.1-253.13:4, and (b) such courses in career investigation at the elementary school level as it 111 deems appropriate. The Board shall develop and disseminate to each school board career investigation 112 resource materials that are designed to ensure that students have the ability to further explore interest in 113 career and technical education opportunities in middle and high school. In developing such resource 114 materials, the Board shall consult with representatives of career and technical education, industry, skilled 115 trade associations, chambers of commerce or similar organizations, and contractor organizations.

116 C. Local school boards shall develop and implement a program of instruction for grades K through 117 12 that is aligned to the Standards of Learning and meets or exceeds the requirements of the Board. The

program of instruction shall emphasize reading, writing, speaking, mathematical concepts and 118 119 computations, proficiency in the use of computers and related technology, computer science and 120 computational thinking, including computer coding, and scientific concepts and processes; essential skills and concepts of citizenship, including knowledge of Virginia history and world and United States 121 122 history, economics, government, foreign languages, international cultures, health and physical education, 123 environmental issues, and geography necessary for responsible participation in American society and in 124 the international community; fine arts, which may include, but need not be limited to, music and art, 125 and practical arts; knowledge and skills needed to qualify for further education, gainful employment, or 126 training in a career or technical field; and development of the ability to apply such skills and knowledge 127 in preparation for eventual employment and lifelong learning and to achieve economic self-sufficiency.

128 Local school boards shall also develop and implement programs of prevention, intervention, or 129 remediation for students who are educationally at risk including, but not limited to, those who fail to 130 achieve a passing score on any Standards of Learning assessment in grades three through eight or who 131 fail an end-of-course test required for the award of a verified unit of credit. Such programs shall include 132 components that are research-based.

133 Any student who achieves a passing score on one or more, but not all, of the Standards of Learning 134 assessments for the relevant grade level in grades three through eight may be required to attend a 135 remediation program.

136 Any student who fails to achieve a passing score on all of the Standards of Learning assessments for 137 the relevant grade level in grades three through eight or who fails an end-of-course test required for the 138 award of a verified unit of credit shall be required to attend a remediation program or to participate in 139 another form of remediation. Division superintendents shall require such students to take special 140 programs of prevention, intervention, or remediation, which may include attendance in public summer school programs, in accordance with clause (ii) of subsection A of § 22.1-254 and § 22.1-254.01. 141

142 Remediation programs shall include, when applicable, a procedure for early identification of students 143 who are at risk of failing the Standards of Learning assessments in grades three through eight or who 144 fail an end-of-course test required for the award of a verified unit of credit. Such programs may also 145 include summer school for all elementary and middle school grades and for all high school academic 146 courses, as defined by regulations promulgated by the Board, or other forms of remediation. Summer 147 school remediation programs or other forms of remediation shall be chosen by the division 148 superintendent to be appropriate to the academic needs of the student. Students who are required to 149 attend such summer school programs or to participate in another form of remediation shall not be 150 charged tuition by the school division.

The requirement for remediation may, however, be satisfied by the student's attendance in a program 151 152 of prevention, intervention or remediation that has been selected by his parent, in consultation with the 153 division superintendent or his designee, and is either (i) conducted by an accredited private school or (ii) 154 a special program that has been determined to be comparable to the required public school remediation 155 program by the division superintendent. The costs of such private school remediation program or other special remediation program shall be borne by the student's parent. 156

157 The Board shall establish standards for full funding of summer remedial programs that shall include, 158 but not be limited to, the minimum number of instructional hours or the equivalent thereof required for 159 full funding and an assessment system designed to evaluate program effectiveness. Based on the number of students attending and the Commonwealth's share of the per pupil instructional costs, state funds shall 160 161 be provided for the full cost of summer and other remediation programs as set forth in the appropriation 162 act, provided such programs comply with such standards as shall be established by the Board, pursuant to § 22.1-199.2. 163

164 D. Local school boards shall also implement the following:

165 1. Programs in grades K through three that emphasize developmentally appropriate learning to 166 enhance success.

2. Programs based on prevention, intervention, or remediation designed to increase the number of 167 168 students who earn a high school diploma and to prevent students from dropping out of school. Such 169 programs shall include components that are research-based.

170 3. Career and technical education programs incorporated into the K through 12 curricula that include: 171 a. Knowledge of careers and all types of employment opportunities, including, but not limited to, 172 apprenticeships, entrepreneurship and small business ownership, the military, and the teaching 173 profession, and emphasize the advantages of completing school with marketable skills; 174

b. Career exploration opportunities in the middle school grades;

175 c. Competency-based career and technical education programs that integrate academic outcomes, 176 career guidance, and job-seeking skills for all secondary students. Programs shall be based upon labor 177 market needs and student interest. Career guidance shall include counseling about available employment 178 opportunities and placement services for students exiting school. Each school board shall develop and implement a plan to ensure compliance with the provisions of this subdivision. Such plan shall be developed with the input of area business and industry representatives and local comprehensive community colleges and shall be submitted to the Superintendent in accordance with the timelines established by federal law;

d. Annual notice on its website to enrolled high school students and their parents of (i) the availability of the postsecondary education and employment data published by the State Council of Higher Education on its website pursuant to § 23.1-204.1 and (ii) the opportunity for such students to obtain a nationally recognized career readiness certificate at a local public high school, comprehensive community college, or workforce center; and

e. As part of each student's academic and career plan, a list of (i) the top 100 professions in the Commonwealth by median pay and the education, training, and skills required for each such profession and (ii) the top 10 degree programs at institutions of higher education in the Commonwealth by median pay of program graduates. The Department shall annually compile such lists and provide them to each local school board.

4. Educational objectives in middle and high school that emphasize economic education and financialliteracy pursuant to § 22.1-200.03.

195 5. Early identification of students with disabilities and enrollment of such students in appropriate196 instructional programs consistent with state and federal law.

197 6. Early identification of gifted students and enrollment of such students in appropriately198 differentiated instructional programs.

199 7. Educational alternatives for students whose needs are not met in programs prescribed elsewhere in200 these standards. Such students shall be counted in average daily membership (ADM) in accordance with201 the regulations of the Board.

8. Adult education programs for individuals functioning below the high school completion level.
Such programs may be conducted by the school board as the primary agency or through a collaborative arrangement between the school board and other agencies.

9. A plan to make achievements for students who are educationally at risk a divisionwide prioritythat shall include procedures for measuring the progress of such students.

10. An agreement for postsecondary degree attainment with a comprehensive community college in
the Commonwealth specifying the options for students to complete an associate degree or a one-year
Uniform Certificate of General Studies from a comprehensive community college concurrent with a high
school diploma. Such agreement shall specify the credit available for dual enrollment courses and
Advanced Placement courses with qualifying exam scores of three or higher.

212 11. A plan to notify students and their parents of the availability of dual enrollment and advanced 213 placement classes; career and technical education programs, including internships, externships, 214 apprenticeships, credentialing programs, certification programs, licensure programs, and other work-based learning experiences; the International Baccalaureate Program and Academic Year Governor's School 215 216 Programs; the qualifications for enrolling in such classes, programs, and experiences; and the availability of financial assistance to low-income and needy students to take the advanced placement and International Baccalaureate examinations. This plan shall include notification to students and parents of 217 218 the agreement with a comprehensive community college in the Commonwealth to enable students to 219 220 complete an associate degree or a one-year Uniform Certificate of General Studies concurrent with a 221 high school diploma.

12. Identification of students with limited English proficiency and enrollment of such students in
 appropriate instructional programs, which programs may include dual language programs whereby such
 students receive instruction in English and in a second language.

225 13. Early identification, diagnosis, and assistance for students with mathematics problems and
 226 provision of instructional strategies and mathematics practices that benefit the development of
 227 mathematics skills for all students.

228 Local school divisions shall provide algebra readiness intervention services to students in grades six 229 through nine who are at risk of failing the Algebra I end-of-course test, as demonstrated by their 230 individual performance on any diagnostic test that has been approved by the Department. Local school 231 divisions shall report the results of the diagnostic tests to the Department on an annual basis, at a time 232 to be determined by the Superintendent. Each student who receives algebra readiness intervention services will be assessed again at the end of that school year. Funds appropriated for prevention, 233 234 intervention, and remediation; summer school remediation; at-risk; or algebra readiness intervention 235 services may be used to meet the requirements of this subdivision.

14. Incorporation of art, music, and physical education as a part of the instructional program at theelementary school level.

238 15. A program of physical activity available to all students in grades kindergarten through five239 consisting of at least 20 minutes per day or an average of 100 minutes per week during the regular

SB379ER

240 school year and available to all students in grades six through 12 with a goal of at least 150 minutes per 241 week on average during the regular school year. Such program may include any combination of (i) 242 physical education classes, (ii) extracurricular athletics, (iii) recess, or (iv) other programs and physical 243 activities deemed appropriate by the local school board. Each local school board shall implement such 244 program during the regular school year. Any physical education class offered to students in grades seven 245 and eight shall include at least one hour of personal safety training per school year in each such grade 246 level that is developed and delivered in partnership with the local law-enforcement agency and consists 247 of situational safety awareness training and social media education. Each local school board shall offer to all students in grade nine or 10 a physical education class that includes research-based hazing 248 249 prevention instruction pursuant to subsection C of § 22.1-207, unless such hazing prevention instruction 250 is provided as part of a separate health education class offered to students in grade nine or 10.

251 16. A program of student services for kindergarten through grade 12 that shall be designed to aid students in their educational, social, and career development.

17. The collection and analysis of data and the use of the results to evaluate and make decisionsabout the instructional program.

18. A program of instruction in the high school Virginia and U.S. Government course on allinformation and concepts contained in the civics portion of the U.S. Naturalization Test.

257 E. From such funds as may be appropriated or otherwise received for such purpose, there shall be 258 established within the Department a unit to (i) conduct evaluative studies; (ii) provide the resources and 259 technical assistance to increase the capacity for school divisions to deliver quality instruction; and (iii) 260 assist school divisions in implementing those programs and practices that will enhance pupil academic performance and improve family and community involvement in the public schools. Such unit shall 261 262 identify and analyze effective instructional programs and practices and professional development 263 initiatives; evaluate the success of programs encouraging parental and family involvement; assess 264 changes in student outcomes prompted by family involvement; and collect and disseminate among school divisions information regarding effective instructional programs and practices, initiatives 265 266 promoting family and community involvement, and potential funding and support sources. Such unit may also provide resources supporting professional development for administrators and teachers. In 267 268 providing such information, resources, and other services to school divisions, the unit shall give priority 269 to those divisions demonstrating a less than 70 percent passing rate on the Standards of Learning 270 assessments.

271 F. Each local school board may enter into agreements for postsecondary course credit, credential, 272 certification, or license attainment, hereinafter referred to as College and Career Access Pathways 273 Partnerships (Partnerships), with comprehensive community colleges or other public institutions of higher 274 education or educational institutions established pursuant to Title 23.1 that offer a career and technical 275 education curriculum. Such Partnerships shall (i) specify the options for students to take courses as part 276 of the career and technical education curriculum that lead to course credit or an industry-recognized 277 credential, certification, or license concurrent with a high school diploma; (ii) specify the credit, 278 credentials, certifications, or licenses available for such courses; and (iii) specify available options for 279 students to participate in pre-apprenticeship and apprenticeship programs at comprehensive community 280 colleges concurrent with the pursuit of a high school diploma and receive college credit and high school 281 credit for successful completion of any such program.

G. Each local school board shall provide a program of literacy instruction that is aligned with
science-based reading research and provides evidenced-based literacy instruction to students in
kindergarten through grade eight and is consistent with the school board's literacy plan as required by
subsection B of § 22.1-253.13:6. Pursuant to such program:

1. Each local school board shall provide reading intervention services to students in kindergarten
through grade eight who demonstrate substantial deficiencies based on their individual performance on
the Standards of Learning reading assessment or a literacy screener provided or approved by the
Department. Such reading intervention services shall consist of evidence-based literacy instruction, align
with science-based reading research, and be documented for each student in a written student reading
plan, consistent with the requirements in subdivision 2 and the list developed by the Department
pursuant to subdivision H 2.

293 2. A reading specialist, in collaboration with the teacher of any student who receives reading 294 intervention services pursuant to subdivision 1, shall develop, oversee implementation of, and monitor 295 student progress on a student reading plan. The parent of each student who receives reading intervention 296 services pursuant to subdivision 1 shall receive notice of and have the opportunity to participate in the 297 development of the student reading plan. Each student reading plan (i) shall follow the Department 298 template created pursuant to subdivision H 3; (ii) shall document such reading intervention services; (iii) 299 shall include, at a minimum, (a) the student's specific, diagnosed reading skill deficiencies as determined 300 or identified by diagnostic assessment data or the literacy screener provided or approved by the

301 Department; (b) the goals and benchmarks for student growth in reading; (c) a description of the specific 302 measures that will be used to evaluate and monitor the student's reading progress; (d) the specific evidence-based literacy instruction that the student will receive; (e) the strategies, resources, and 303 304 materials that will be provided to the student's parent to support the student to make reading progress; 305 and (f) any additional services the teacher deems available and appropriate to accelerate the student's 306 reading skill development; and (iv) may include the following services for the student: instruction from a reading specialist, trained aide, computer-based reading tutorial program, or classroom teacher with 307 308 support from an aide, extended instructional time in the school day or school year, or, for students in 309 grades six through eight, a literacy course, in addition to the course required by the Standards of 310 Learning in English, that provides the specific evidence-based literacy instruction identified in the 311 student's reading plan. In accordance with § 22.1-215.2, the parent of each student shall receive notice 312 before services begin and a copy of the student reading plan.

313 3. Each student who receives such reading intervention services shall be assessed utilizing either the literacy screener provided or approved by the Department or the grade-level reading Standards of 314 315 Learning assessment again at the end of that school year.

Funds appropriated for prevention, intervention, and remediation, summer school remediation, the 316 317 at-risk add-on, or early intervention reading may be used to meet the requirements of this subsection. 318

H. In order to assist local school boards to implement the provisions of subsection G:

1. The Board shall provide guidance on the content of student reading plans;

319

320 2. The Department shall develop a list of core literacy curricula, supplemental instruction practices 321 and programs, and intervention programs that consist of evidence-based literacy instruction aligned with 322 science-based reading research for students in kindergarten through grade eight. The list shall be 323 approved by the Board;

324 3. The Department shall develop a template for student reading plans that aligns with the 325 requirements of subsection G;

326 4. The Department shall develop and implement a plan for the annual collection and public reporting 327 of division-level and school-level literacy data, at a time to be determined by the Superintendent, to 328 include results on the literacy screeners provided or approved by the Department and the reading 329 Standards of Learning assessments; and

330 5. The Department shall provide free online evidence-based literacy instruction resources that can be 331 accessed by parents and local school boards to support student literacy development at home.

332 § 22.1-279.9. Development of programs to prevent crime and violence; hazing prevention 333 training program.

334 All school boards shall develop, in cooperation with the local law-enforcement agencies, juvenile and 335 domestic relations *district* court judges, and personnel, parents, and the community at large, programs to 336 prevent violence and crime on school property and at school-sponsored events, which shall include prevention of research-based hazing prevention. Activities designed to prevent the recurrence of violence 337 338 and crime, including hazing, may include such interventions as education relating to Virginia's criminal 339 law, school crime lines, peer mediation, conflict resolution, community service requirements, and any 340 program focused on demonstrating the consequences of violence and crime. School boards are 341 encouraged to develop and use a network of volunteer services in implementing these prevention 342 activities.

343 2. That each school board shall, beginning with the school year following the Board of Education's 344 adoption of revised Standards of Learning for physical and health education for grades nine and 10 incorporating such research-based hazing prevention instruction, provide research-based hazing 345 346 prevention instruction in accordance with the provisions of this act. The Department of Education 347 shall, prior to the adoption of such revised Standards of Learning for physical and health 348 education for grades nine and 10, develop and post on its official website guidance documents for 349 the purpose of making such research-based hazing prevention training available to local school 350 boards.
