## **SENATE BILL NO. 726**

AMENDMENT IN THE NATURE OF A SUBSTITUTE

(Proposed by the House Committee on Education

on February 28, 2024)

(Patrons Prior to Substitute—Senators Pillion and Pekarsky [SB 387])

6 A BILL to amend and reenact § 54.1-3408 of the Code of Virginia and to amend the Code of Virginia by adding a section numbered 22.1-274.4:1, relating to public elementary and secondary schools; policies and requirements relating to opioid antagonists.

9 Be it enacted by the General Assembly of Virginia:

10 1. That § 54.1-3408 of the Code of Virginia is amended and reenacted and that the Code of 11 Virginia is amended by adding a section numbered 22.1-274.4:1 as follows:

12 § 22.1-274.4:1. Opioid antagonist procurement, placement, storage, and maintenance; staff and 13 faculty training, possession, and administration; policies and requirements.

A. Each school board shall develop a plan, in accordance with subsection X of § 54.1-3408 and guidelines developed by the Department of Education in collaboration with the Department of Health, for the procurement, placement, storage, and maintenance of a supply of opioid antagonists for the purposes of opioid overdose reversal in every public elementary and secondary school. Each school board shall develop policies and procedures for ensuring each public elementary and secondary school maintains at all times a supply of opioid antagonists in an amount equivalent to at least two unexpired doses, including:

1. Policies requiring each such elementary and secondary school to inspect any such opioid
antagonist supply at least annually and maintain a record of the date of inspection, the expiration date
on each dose, and, in the event that a dose of such opioid antagonist is administered for overdose
reversal to a person who is believed to be experiencing or about to experience a life-threatening opioid
overdose, the date of such administration;

26 2. Procedures for requesting a replacement dose of an opioid antagonist any time a dose has
 27 expired, is administered for overdose reversal, or is otherwise rendered unusable; and

28 3. Policies relating to the proper and safe storage of such supply of opioid antagonists in each such
 29 elementary and secondary school.

B. Each school board shall, in accordance with the guidelines and policies developed by the
Department of Education in collaboration with the Department of Health, place a supply of opioid
antagonists in an amount equivalent to at least two unexpired doses in every public elementary and
secondary school in the school division. Each school board shall provide to each public elementary and
secondary school additional opioid antagonist doses as necessary to ensure that each such elementary
and secondary school at all times possesses in its supply of opioid antagonists at least two unexpired
doses of an opioid antagonist.

37 C. Each school board shall adopt and implement policies, in accordance with the provisions of 38 subsection X of § 54.1-3408, for each public elementary and secondary school relating to the possession 39 and administration of an opioid antagonist to any student, faculty, or staff member who is believed to be 40 experiencing or about to experience a life-threatening opioid overdose by any school nurse or employee who is authorized by a prescriber and trained in the administration of an opioid antagonist for opioid 41 42 overdose reversal. Such policies shall require each public elementary and secondary school to ensure that at least one school nurse or other school board employee at such school (i) is trained in the 43 44 administration of an opioid antagonist and (ii) has the means to access at all times during regular school hours any opioid antagonist supply that is stored in a locked or otherwise generally inaccessible 45 46 container or area.

47 D. Each school board shall, in adopting and implementing the policies set forth in subsections B and
48 C, utilize to the fullest extent possible programs offered by the Department of Health relating to training
49 in the administration of opioid antagonists and the procurement of doses of opioid antagonists.

50 E. Any employee of any public elementary or secondary school who in good faith administers an 51 opioid antagonist for opioid overdose reversal to any individual who is believed to be experiencing or 52 about to experience a life-threatening opioid overdose, regardless of whether such employee was trained 53 in administration of an opioid antagonist pursuant to subsection C, shall be immune from any 54 disciplinary action or civil or criminal liability for any act or omission made in connection with the 55 administration of an opioid antagonist in such incident, unless such act or omission was the result of 56 gross negligence or willful misconduct.

57 F. Each public elementary and secondary school shall implement the policies adopted by the 58 respective school board pursuant to subsection C and shall adopt policies in accordance with the 59 provisions of subsections D and E.

## 60 § 54.1-3408. Professional use by practitioners.

A. A practitioner of medicine, osteopathy, podiatry, dentistry, or veterinary medicine, a licensed advanced practice registered nurse pursuant to § 54.1-2957.01, a licensed certified midwife pursuant to 61 62 63 § 54.1-2957.04, a licensed physician assistant pursuant to § 54.1-2952.1, or a TPA-certified optometrist 64 pursuant to Article 5 (§ 54.1-3222 et seq.) of Chapter 32 shall only prescribe, dispense, or administer controlled substances in good faith for medicinal or therapeutic purposes within the course of his 65 professional practice. A licensed midwife pursuant to § 54.1-2957.7 shall only obtain, possess, and 66 administer controlled substances in good faith for medicinal or therapeutic purposes within the course of 67 68 his professional practice.

69 B. The prescribing practitioner's order may be on a written prescription or pursuant to an oral prescription as authorized by this chapter. The prescriber may administer drugs and devices, or he may 70 71 cause drugs or devices to be administered by: 72

1. A nurse, physician assistant, or intern under his direction and supervision;

2. Persons trained to administer drugs and devices to patients in state-owned or state-operated 73 hospitals or facilities licensed as hospitals by the Board of Health or psychiatric hospitals licensed by 74 the Department of Behavioral Health and Developmental Services who administer drugs under the 75 76 control and supervision of the prescriber or a pharmacist;

3. Emergency medical services personnel certified and authorized to administer drugs and devices 77 78 pursuant to regulations of the Board of Health who act within the scope of such certification and 79 pursuant to an oral or written order or standing protocol;

80 4. Persons who are employed or engaged at a medical care facility, as defined in § 32.1-3, who have 81 a valid emergency medical services provider certification issued by the Board of Health as a requirement 82 of being employed or engaged at the medical care facility within the scope of such certification, 83 pursuant to an oral or written order or standing protocol to administer drugs and devices at the medical 84 care facility; or

85 5. A licensed respiratory therapist as defined in § 54.1-2954 who administers by inhalation controlled 86 substances used in inhalation or respiratory therapy.

87 C. Pursuant to an oral or written order or standing protocol, the prescriber, who is authorized by 88 state or federal law to possess and administer radiopharmaceuticals in the scope of his practice, may 89 authorize a nuclear medicine technologist to administer, under his supervision, radiopharmaceuticals used 90 in the diagnosis or treatment of disease.

91 D. Pursuant to an oral or written order or standing protocol issued by the prescriber within the 92 course of his professional practice, such prescriber may authorize registered nurses and licensed practical 93 nurses to possess (i) epinephrine and oxygen for administration in treatment of emergency medical 94 conditions and (ii) heparin and sterile normal saline to use for the maintenance of intravenous access 95 lines.

96 Pursuant to the regulations of the Board of Health, certain emergency medical services technicians may possess and administer epinephrine in emergency cases of anaphylactic shock. 97

Pursuant to an order or standing protocol issued by the prescriber within the course of his 98 99 professional practice, any school nurse, school board employee, employee of a local governing body, or 100 employee of a local health department who is authorized by a prescriber and trained in the 101 administration of epinephrine may possess and administer epinephrine.

102 Pursuant to an order or standing protocol that shall be issued by the local health director within the course of his professional practice, any school nurse, licensed athletic trainer under contract with a local 103 school division, school board employee, employee of a local governing body, or employee of a local 104 health department who is authorized by the local health director and trained in the administration of 105 albuterol inhalers and valved holding chambers or nebulized albuterol may possess or administer an 106 albuterol inhaler and a valved holding chamber or nebulized albuterol to a student diagnosed with a 107 108 condition requiring an albuterol inhaler or nebulized albuterol when the student is believed to be 109 experiencing or about to experience an asthmatic crisis.

110 Pursuant to an order or a standing protocol issued by the prescriber within the course of his professional practice, any employee of a school for students with disabilities, as defined in § 22.1-319 111 and licensed by the Board of Education, or any employee of a private school that is accredited pursuant 112 to § 22.1-19 as administered by the Virginia Council for Private Education who is authorized by a 113 114 prescriber and trained in the administration of (a) epinephrine may possess and administer epinephrine and (b) albuterol inhalers or nebulized albuterol may possess or administer an albuterol inhaler or 115 nebulized albuterol to a student diagnosed with a condition requiring an albuterol inhaler or nebulized 116 albuterol when the student is believed to be experiencing or about to experience an asthmatic crisis. 117

Pursuant to an order or a standing protocol issued by the prescriber within the course of his 118 professional practice, any nurse at an early childhood care and education entity, employee at the entity, 119 120 or employee of a local health department who is authorized by a prescriber and trained in the administration of epinephrine may possess and administer epinephrine. 121

3 of 7

122 Pursuant to an order or a standing protocol issued by the prescriber within the course of his 123 professional practice, any employee of a public institution of higher education or a private institution of 124 higher education who is authorized by a prescriber and trained in the administration of epinephrine may 125 possess and administer epinephrine.

126 Pursuant to an order or a standing protocol issued by the prescriber within the course of his 127 professional practice, any employee of an organization providing outdoor educational experiences or 128 programs for youth who is authorized by a prescriber and trained in the administration of epinephrine 129 may possess and administer epinephrine.

130 Pursuant to an order or a standing protocol issued by the prescriber within the course of his 131 professional practice, and in accordance with policies and guidelines established by the Department of 132 Health, such prescriber may authorize any employee of a restaurant licensed pursuant to Chapter 3 133 (§ 35.1-18 et seq.) of Title 35.1 to possess and administer epinephrine on the premises of the restaurant 134 at which the employee is employed, provided that such person is trained in the administration of 135 epinephrine.

136 Pursuant to an order issued by the prescriber within the course of his professional practice, an 137 employee of a provider licensed by the Department of Behavioral Health and Developmental Services or 138 a person providing services pursuant to a contract with a provider licensed by the Department of 139 Behavioral Health and Developmental Services may possess and administer epinephrine, provided such 140 person is authorized and trained in the administration of epinephrine.

141 Pursuant to an order or standing protocol issued by the prescriber within the course of his 142 professional practice, any employee of a public place, as defined in § 15.2-2820, who is authorized by a 143 prescriber and trained in the administration of epinephrine may possess and administer epinephrine.

144 Pursuant to an oral or written order or standing protocol issued by the prescriber within the course of 145 his professional practice, such prescriber may authorize pharmacists to possess epinephrine and oxygen 146 for administration in treatment of emergency medical conditions.

147 E. Pursuant to an oral or written order or standing protocol issued by the prescriber within the course 148 of his professional practice, such prescriber may authorize licensed physical therapists to possess and 149 administer topical corticosteroids, topical lidocaine, and any other Schedule VI topical drug.

150 F. Pursuant to an oral or written order or standing protocol issued by the prescriber within the course 151 of his professional practice, such prescriber may authorize licensed athletic trainers to possess and 152 administer topical corticosteroids, topical lidocaine, or other Schedule VI topical drugs; oxygen and IV 153 saline for use in emergency situations; subcutaneous lidocaine for wound closure; epinephrine for use in 154 emergency cases of anaphylactic shock; and naloxone or other opioid antagonist for overdose reversal.

155 G. Pursuant to an oral or written order or standing protocol issued by the prescriber within the 156 course of his professional practice, and in accordance with policies and guidelines established by the 157 Department of Health pursuant to § 32.1-50.2, such prescriber may authorize registered nurses or 158 licensed practical nurses under the supervision of a registered nurse to possess and administer tuberculin 159 purified protein derivative (PPD) in the absence of a prescriber. The Department of Health's policies and 160 guidelines shall be consistent with applicable guidelines developed by the Centers for Disease Control and Prevention for preventing transmission of mycobacterium tuberculosis and shall be updated to 161 162 incorporate any subsequently implemented standards of the Occupational Safety and Health Administration and the Department of Labor and Industry to the extent that they are inconsistent with 163 164 the Department of Health's policies and guidelines. Such standing protocols shall explicitly describe the 165 categories of persons to whom the tuberculin test is to be administered and shall provide for appropriate 166 medical evaluation of those in whom the test is positive. The prescriber shall ensure that the nurse implementing such standing protocols has received adequate training in the practice and principles 167 168 underlying tuberculin screening.

169 The Health Commissioner or his designee may authorize registered nurses, acting as agents of the 170 Department of Health, to possess and administer, at the nurse's discretion, tuberculin purified protein 171 derivative (PPD) to those persons in whom tuberculin skin testing is indicated based on protocols and 172 policies established by the Department of Health.

H. Pursuant to a written order or standing protocol issued by the prescriber within the course of his 173 174 professional practice, such prescriber may authorize, with the consent of the parents as defined in 175 § 22.1-1, an employee of (i) a school board, (ii) a school for students with disabilities as defined in 176 § 22.1-319 licensed by the Board of Education, or (iii) a private school accredited pursuant to § 22.1-19 177 as administered by the Virginia Council for Private Education who is trained in the administration of 178 insulin and glucagon to assist with the administration of insulin or administer glucagon to a student 179 diagnosed as having diabetes and who requires insulin injections during the school day or for whom 180 glucagon has been prescribed for the emergency treatment of hypoglycemia. Such authorization shall 181 only be effective when a licensed nurse, an advanced practice registered nurse, a physician, or a physician assistant is not present to perform the administration of the medication. 182

183 Pursuant to a written order or standing protocol issued by the prescriber within the course of his 184 professional practice, such prescriber may authorize an employee of a public institution of higher 185 education or a private institution of higher education who is trained in the administration of insulin and 186 glucagon to assist with the administration of insulin or administration of glucagon to a student diagnosed 187 as having diabetes and who requires insulin injections or for whom glucagon has been prescribed for the 188 emergency treatment of hypoglycemia. Such authorization shall only be effective when a licensed nurse, 189 an advanced practice registered nurse, a physician, or a physician assistant is not present to perform the 190 administration of the medication.

191 Pursuant to a written order issued by the prescriber within the course of his professional practice, 192 such prescriber may authorize an employee of a provider licensed by the Department of Behavioral 193 Health and Developmental Services or a person providing services pursuant to a contract with a provider licensed by the Department of Behavioral Health and Developmental Services to assist with the 194 195 administration of insulin or to administer glucagon to a person diagnosed as having diabetes and who requires insulin injections or for whom glucagon has been prescribed for the emergency treatment of 196 197 hypoglycemia, provided such employee or person providing services has been trained in the 198 administration of insulin and glucagon.

199 I. A prescriber may authorize, pursuant to a protocol approved by the Board of Nursing, the 200 administration of vaccines to adults for immunization, when a practitioner with prescriptive authority is 201 not physically present, by (i) licensed pharmacists, (ii) registered nurses, or (iii) licensed practical nurses 202 under the supervision of a registered nurse. A prescriber acting on behalf of and in accordance with 203 established protocols of the Department of Health may authorize the administration of vaccines to any 204 person by a pharmacist, nurse, or designated emergency medical services provider who holds an advanced life support certificate issued by the Commissioner of Health under the direction of an 205 206 operational medical director when the prescriber is not physically present. The emergency medical 207 services provider shall provide documentation of the vaccines to be recorded in the Virginia Immunization Information System. 208

**209** J. A dentist may cause Schedule VI topical drugs to be administered under his direction and **210** supervision by either a dental hygienist or by an authorized agent of the dentist.

Further, pursuant to a written order and in accordance with a standing protocol issued by the dentist in the course of his professional practice, a dentist may authorize a dental hygienist under his general supervision, as defined in § 54.1-2722, or his remote supervision, as defined in subsection E or F of § 54.1-2722, to possess and administer topical oral fluorides, topical oral anesthetics, topical and directly applied antimicrobial agents for treatment of periodontal pocket lesions, and any other Schedule VI topical drug approved by the Board of Dentistry.

In addition, a dentist may authorize a dental hygienist under his direction to administer Schedule VI
 nitrous oxide and oxygen inhalation analgesia and, to persons 18 years of age or older, Schedule VI
 local anesthesia.

K. Pursuant to an oral or written order or standing protocol issued by the prescriber within the
 course of his professional practice, such prescriber may authorize registered professional nurses certified
 as sexual assault nurse examiners-A (SANE-A) under his supervision and when he is not physically
 present to possess and administer preventive medications for victims of sexual assault as recommended
 by the Centers for Disease Control and Prevention.

225 L. This section shall not prevent the administration of drugs by a person who has satisfactorily 226 completed a training program for this purpose approved by the Board of Nursing and who administers 227 such drugs in accordance with a prescriber's instructions pertaining to dosage, frequency, and manner of 228 administration, and in accordance with regulations promulgated by the Board of Pharmacy relating to 229 security and record keeping, when the drugs administered would be normally self-administered by (i) an 230 individual receiving services in a program licensed by the Department of Behavioral Health and 231 Developmental Services; (ii) a resident of the Virginia Rehabilitation Center for the Blind and Vision 232 Impaired; (iii) a resident of a facility approved by the Board or Department of Juvenile Justice for the 233 placement of children in need of services or delinquent or alleged delinquent youth; (iv) a program 234 participant of an adult day-care center licensed by the Department of Social Services; (v) a resident of 235 any facility authorized or operated by a state or local government whose primary purpose is not to 236 provide health care services; (vi) a resident of a private children's residential facility, as defined in 237 § 63.2-100 and licensed by the Department of Social Services, Department of Education, or Department 238 of Behavioral Health and Developmental Services; or (vii) a student in a school for students with 239 disabilities, as defined in § 22.1-319 and licensed by the Board of Education.

In addition, this section shall not prevent a person who has successfully completed a training
 program for the administration of drugs via percutaneous gastrostomy tube approved by the Board of
 Nursing and been evaluated by a registered nurse as having demonstrated competency in administration
 of drugs via percutaneous gastrostomy tube from administering drugs to a person receiving services from
 a program licensed by the Department of Behavioral Health and Developmental Services to such person

via percutaneous gastrostomy tube. The continued competency of a person to administer drugs viapercutaneous gastrostomy tube shall be evaluated semiannually by a registered nurse.

247 M. Medication aides registered by the Board of Nursing pursuant to Article 7 (§ 54.1-3041 et seq.) 248 of Chapter 30 may administer drugs that would otherwise be self-administered to residents of any 249 assisted living facility licensed by the Department of Social Services. A registered medication aide shall 250 administer drugs pursuant to this section in accordance with the prescriber's instructions pertaining to 251 dosage, frequency, and manner of administration; in accordance with regulations promulgated by the 252 Board of Pharmacy relating to security and recordkeeping; in accordance with the assisted living 253 facility's Medication Management Plan; and in accordance with such other regulations governing their 254 practice promulgated by the Board of Nursing.

N. In addition, this section shall not prevent the administration of drugs by a person who administers such drugs in accordance with a physician's instructions pertaining to dosage, frequency, and manner of administration and with written authorization of a parent, and in accordance with school board regulations relating to training, security and record keeping, when the drugs administered would be normally self-administered by a student of a Virginia public school. Training for such persons shall be accomplished through a program approved by the local school boards, in consultation with the local departments of health.

262 O. In addition, this section shall not prevent the administration of drugs by a person to (i) a child in 263 a child day program as defined in § 22.1-289.02 and regulated by the Board of Education or a local 264 government pursuant to § 15.2-914, or (ii) a student of a private school that is accredited pursuant to 265 § 22.1-19 as administered by the Virginia Council for Private Education, provided such person (a) has 266 satisfactorily completed a training program for this purpose approved by the Board of Nursing and 267 taught by a registered nurse, a licensed practical nurse, an advanced practice registered nurse, a physician assistant, a doctor of medicine or osteopathic medicine, or a pharmacist; (b) has obtained 268 269 written authorization from a parent or guardian; (c) administers drugs only to the child identified on the 270 prescription label in accordance with the prescriber's instructions pertaining to dosage, frequency, and 271 manner of administration; and (d) administers only those drugs that were dispensed from a pharmacy 272 and maintained in the original, labeled container that would normally be self-administered by the child 273 or student, or administered by a parent or guardian to the child or student.

274 P. In addition, this section shall not prevent the administration or dispensing of drugs and devices by 275 persons if they are authorized by the State Health Commissioner in accordance with protocols 276 established by the State Health Commissioner pursuant to § 32.1-42.1 when (i) the Governor has 277 declared a disaster or a state of emergency, the United States Secretary of Health and Human Services 278 has issued a declaration of an actual or potential bioterrorism incident or other actual or potential public 279 health emergency, or the Board of Health has made an emergency order pursuant to § 32.1-13 for the 280 purpose of suppressing nuisances dangerous to the public health and communicable, contagious, and 281 infectious diseases and other dangers to the public life and health and for the limited purpose of 282 administering vaccines as an approved countermeasure for such communicable, contagious, and 283 infectious diseases; (ii) it is necessary to permit the provision of needed drugs or devices; and (iii) such 284 persons have received the training necessary to safely administer or dispense the needed drugs or 285 devices. Such persons shall administer or dispense all drugs or devices under the direction, control, and 286 supervision of the State Health Commissioner.

287 Q. Nothing in this title shall prohibit the administration of normally self-administered drugs by unlicensed individuals to a person in his private residence.

289 R. This section shall not interfere with any prescriber issuing prescriptions in compliance with his authority and scope of practice and the provisions of this section to a Board agent for use pursuant to subsection G of § 18.2-258.1. Such prescriptions issued by such prescriber shall be deemed to be valid prescriptions.

293 S. Nothing in this title shall prevent or interfere with dialysis care technicians or dialysis patient care 294 technicians who are certified by an organization approved by the Board of Health Professions or persons 295 authorized for provisional practice pursuant to Chapter 27.01 (§ 54.1-2729.1 et seq.), in the ordinary 296 course of their duties in a Medicare-certified renal dialysis facility, from administering heparin, topical 297 needle site anesthetics, dialysis solutions, sterile normal saline solution, and blood volumizers, for the 298 purpose of facilitating renal dialysis treatment, when such administration of medications occurs under the 299 orders of a licensed physician, an advanced practice registered nurse, or a physician assistant and under 300 the immediate and direct supervision of a licensed registered nurse. Nothing in this chapter shall be construed to prohibit a patient care dialysis technician trainee from performing dialysis care as part of 301 302 and within the scope of the clinical skills instruction segment of a supervised dialysis technician training program, provided such trainee is identified as a "trainee" while working in a renal dialysis facility. 303

The dialysis care technician or dialysis patient care technician administering the medications shall have demonstrated competency as evidenced by holding current valid certification from an organization **306** approved by the Board of Health Professions pursuant to Chapter 27.01 (§ 54.1-2729.1 et seq.).

**307** T. Persons who are otherwise authorized to administer controlled substances in hospitals shall be authorized to administer influenza or pneumococcal vaccines pursuant to § 32.1-126.4.

U. Pursuant to a specific order for a patient and under his direct and immediate supervision, a
prescriber may authorize the administration of controlled substances by personnel who have been
properly trained to assist a doctor of medicine or osteopathic medicine, provided the method does not
include intravenous, intrathecal, or epidural administration and the prescriber remains responsible for
such administration.

V. A physician assistant, nurse, dental hygienist, or authorized agent of a doctor of medicine, osteopathic medicine, or dentistry may possess and administer topical fluoride varnish pursuant to an oral or written order or a standing protocol issued by a doctor of medicine, osteopathic medicine, or dentistry.

W. A prescriber, acting in accordance with guidelines developed pursuant to § 32.1-46.02, may authorize the administration of influenza vaccine to minors by a licensed pharmacist, registered nurse, licensed practical nurse under the direction and immediate supervision of a registered nurse, or emergency medical services provider who holds an advanced life support certificate issued by the Commissioner of Health when the prescriber is not physically present.

X. Notwithstanding the provisions of § 54.1-3303, pursuant to an oral, written, or standing order 323 324 issued by a prescriber or a standing order issued by the Commissioner of Health or his designee 325 authorizing the dispensing of naloxone or other opioid antagonist used for overdose reversal in the 326 absence of an oral or written order for a specific patient issued by a prescriber, and in accordance with 327 protocols developed by the Board of Pharmacy in consultation with the Board of Medicine and the 328 Department of Health, a pharmacist, a health care provider providing services in a hospital emergency department, and emergency medical services personnel, as that term is defined in § 32.1-111.1, may 329 330 dispense naloxone or other opioid antagonist used for overdose reversal and a person to whom naloxone or other opioid antagonist has been dispensed pursuant to this subsection may possess and administer 331 332 naloxone or other opioid antagonist used for overdose reversal to a person who is believed to be 333 experiencing or about to experience a life-threatening opioid overdose. Law-enforcement officers as 334 defined in § 9.1-101, employees of the Department of Forensic Science, employees of the Office of the 335 Chief Medical Examiner, employees of the Department of General Services Division of Consolidated 336 Laboratory Services, employees of the Department of Corrections designated by the Director of the 337 Department of Corrections or designated as probation and parole officers or as correctional officers as 338 defined in § 53.1-1, employees of the Department of Juvenile Justice designated as probation and parole 339 officers or as juvenile correctional officers, employees of regional jails, school nurses, local health 340 department employees that are assigned to a public school pursuant to an agreement between the local 341 health department and the school board, school board employees who have completed training in the 342 administration of an opioid antagonist for overdose reversal, other school board employees or individuals contracted by a school board to provide school health services, and firefighters may also 343 344 possess and administer naloxone or other opioid antagonist used for overdose reversal and may dispense 345 naloxone or other opioid antagonist used for overdose reversal pursuant to an oral, written, or standing order issued by a prescriber or a standing order issued by the Commissioner of Health or his designee in 346 accordance with protocols developed by the Board of Pharmacy in consultation with the Board of 347 348 Medicine and the Department of Health.

349 Notwithstanding the provisions of § 54.1-3303, pursuant to an oral, written, or standing order issued by a prescriber or a standing order issued by the Commissioner of Health or his designee authorizing the 350 dispensing of naloxone or other opioid antagonist used for overdose reversal in the absence of an oral or 351 written order for a specific patient issued by a prescriber, and in accordance with protocols developed by 352 the Board of Pharmacy in consultation with the Board of Medicine and the Department of Health, any 353 354 person may possess and administer naloxone or other opioid antagonist used for overdose reversal, other 355 than naloxone in an injectable formulation with a hypodermic needle or syringe, in accordance with 356 protocols developed by the Board of Pharmacy in consultation with the Board of Medicine and the 357 Department of Health.

Y. Notwithstanding any other law or regulation to the contrary, a person who is acting on behalf of 358 359 an organization that provides services to individuals at risk of experiencing an opioid overdose or 360 training in the administration of naloxone for overdose reversal may dispense naloxone, provided that 361 such dispensing is (i) pursuant to a standing order issued by a prescriber and (ii) in accordance with protocols developed by the Board of Pharmacy in consultation with the Board of Medicine and the 362 Department of Health. If the person acting on behalf of an organization dispenses naloxone in an 363 364 injectable formulation with a hypodermic needle or syringe, he shall first obtain authorization from the Department of Behavioral Health and Developmental Services to train individuals on the proper 365 administration of naloxone by and proper disposal of a hypodermic needle or syringe, and he shall 366 obtain a controlled substance registration from the Board of Pharmacy. The Board of Pharmacy shall not 367

charge a fee for the issuance of such controlled substance registration. The dispensing may occur at a 368 site other than that of the controlled substance registration provided the entity possessing the controlled 369 370 substances registration maintains records in accordance with regulations of the Board of Pharmacy. No 371 person who dispenses naloxone on behalf of an organization pursuant to this subsection shall charge a 372 fee for the dispensing of naloxone that is greater than the cost to the organization of obtaining the 373 naloxone dispensed. A person to whom naloxone has been dispensed pursuant to this subsection may 374 possess naloxone and may administer naloxone to a person who is believed to be experiencing or about 375 to experience a life-threatening opioid overdose.

376 Z. A person who is not otherwise authorized to administer naloxone or other opioid antagonist used
377 for overdose reversal may administer naloxone or other opioid antagonist used for overdose reversal to a
378 person who is believed to be experiencing or about to experience a life-threatening opioid overdose.

379 AA. Pursuant to a written order or standing protocol issued by the prescriber within the course of his 380 professional practice, such prescriber may authorize, with the consent of the parents as defined in 381 § 22.1-1, an employee of (i) a school board, (ii) a school for students with disabilities as defined in 382 § 22.1-319 licensed by the Board of Education, or (iii) a private school accredited pursuant to § 22.1-19 383 as administered by the Virginia Council for Private Education who is trained in the administration of 384 injected medications for the treatment of adrenal crisis resulting from a condition causing adrenal 385 insufficiency to administer such medication to a student diagnosed with a condition causing adrenal 386 insufficiency when the student is believed to be experiencing or about to experience an adrenal crisis. 387 Such authorization shall be effective only when a licensed nurse, an advanced practice registered nurse, 388 a physician, or a physician assistant is not present to perform the administration of the medication.

389 2. That the Department of Education and the Department of Health shall collaborate to develop 390 guidelines and policies relating to the implementation of the provisions of this act, including 391 guidelines and policies for the (i) procurement, placement, storage, and maintenance of a supply of 392 opioid antagonists in an amount equivalent to at least two unexpired doses of an opioid antagonist 393 in each public elementary and secondary school in the Commonwealth; (ii) possession and 394 administration of opioid antagonists by school board employees, including: (a) the training of at least one school board employee at each public elementary and secondary school in the possession 395 396 and administration of an opioid antagonist and (b) the administration of an opioid antagonist by 397 any such school board employee to any student, faculty, or staff member believed to be 398 experiencing or about to experience a life-threatening opioid overdose; and (iii) utilization of and 399 collaboration with existing opioid overdose training and education programs and resources, including the "Revive!" Opioid Overdose and Naloxone Education program provided by the 400 401 Department of Health, in the provision of the training and the procurement and maintenance of 402 the opioid antagonist supply in accordance with the provisions of this act. The Department of 403 Education shall submit such guidelines and policies developed pursuant to this act to the House Committee on Appropriations, the House Committee on Education, the Senate Committee on 404 Education and Health, and the Senate Committee on Finance and Appropriations by January 1, 405 406 2025.

407 3. That the provisions of this act shall be implemented by each local school board by the 408 beginning of the 2025-2026 school year.
