

State Corporation Commission 2024 Session Fiscal Impact Statement

1. Bill Number: SB271

House of Origin	<input type="checkbox"/> Introduced	<input type="checkbox"/> Substitute	<input type="checkbox"/> Engrossed
Second House	<input type="checkbox"/> In Committee	<input type="checkbox"/> Substitute	<input checked="" type="checkbox"/> Enrolled

2. Patron: Subramanyam

3. Committee: Passed both Houses.

4. Title: Net energy metering; eligible customer-generators and eligible agricultural customer-generators.

5. Summary: Provides that no contract, lease, or arrangement by which a third party owns, maintains, or operates an electrical generating facility on an eligible-customer generator's property shall constitute the sale of electricity or cause the customer-generator or the third party to be considered an electric utility by virtue of participating in net energy metering.

The bill prohibits an eligible customer-generator or eligible agricultural customer-generator from being required to provide proof of liability insurance or to purchase additional liability insurance as a condition of interconnection. The bill exempts eligible customer-generators and eligible agricultural customer-generators that operate a battery storage device of capacity commensurate with and equal to or greater than that of the electrical generating facility and in conjunction with the electrical generating facility from standby charges.

The bill provides that any eligible customer-generator or eligible agricultural customer-generator may participate in demand response, energy efficiency, or peak reduction from dispatch of onsite battery service, provided that the compensation received is in exchange for a distinct service that is not already compensated by net metering credits for electricity exported to the electric distribution system or compensated by any other utility program or tariff.
