111 "Pest" means any organism that exists under circumstances that make it deleterious to man or the
112 environment if it is: any vertebrate animal other than man; or any invertebrate animal, such as any
113 insect, other arthropod, nematode, or mollusk such as a slug or snail, but excluding any internal parasite
114 of living man or other living animals; or any plant growing where not wanted, such as any moss, alga,

"Plant regulator" means any substance or mixture of substances, intended through physiological action, for accelerating or retarding the rate of growth or rate of maturation, or for otherwise altering the behavior of ornamental or crop plants or the produce thereof, but shall not include substances to the extent that they are intended as plant nutrients, trace elements, nutritional chemicals, plant inoculants, and soil amendments.

"State special use" or "pesticide classified for restricted use in the Commonwealth" means any pesticide that, after special review, is judged by the Board to be so hazardous or injurious to persons, pollinating insects, animals, crops, wildlife, lands, or the environment, other than the pests it is intended to prevent, destroy, control, or mitigate, that additional restrictions on its sale, purpose, use, or possession are required.

184 while under the direct supervision of a private applicator on property owned or leased by that private
185 applicator.

194 commercial applicators or registered technicians for the use of pesticides covered by the applicant's
195 certification. The certification of such individual shall be valid only when applying or supervising
196 application of pesticides used by such governmental agencies.

207 *pesticides, by virtue of the nature of the pesticides used or method of application of the pesticides, can*
208 *be accomplished with minimal risk to the public health and safety.*

209 D. A painter who applies restricted-use marine antifoulant paint only under the direct, on-site
210 supervision of a commercial applicator, is not required to be a commercial applicator or a registered
211 technician. For the purposes of this subsection, one commercial applicator shall provide on-site
