 286 § 2.1-342. Official records to be open to inspection; procedure for requesting records and responding
 287 to request; charges; exceptions to application of chapter.
 288 Except as otherwise specifically provided by law, all official records shall be open to inspection and
 289 copying by any citizens of the Commonwealth during the regular office hours of the custodian of such
 290 records. Access to such records shall not be denied to citizens of the Commonwealth, representatives of
 291 newspapers and magazines with circulation in the Commonwealth, and representatives of radio and
 292 television stations broadcasting in or into the Commonwealth. The custodian of such records shall take
 293 all necessary precautions for their preservation and safekeeping. Any public body covered under the
 294 provisions of this chapter shall make an initial response to citizens requesting records open to inspection
 295 within five work days after the receipt of the request by the public body which is the custodian of the
 296 requested records. Such citizen request shall designate the requested records with reasonable specificity.
 297 A specific reference to this chapter by the requesting citizen in his request shall not be necessary to
 298 invoke the provisions of this chapter and the time limits for response by the public body. The response
 299 by the public body within such five work days shall be one of the following responses:
 300 The requested records shall be provided to the requesting citizen.
 301 If the public body determines that an exemption applies to all of the requested records, it may refuse
 302 to release such records and provide to the requesting citizen a written explanation as to why the records
 303 are not available with the explanation making specific reference to the applicable Code sections which
 304 make the requested records exempt.
 305 If the public body determines that an exemption applies to a portion of the requested records, it may

306 delete or excise that portion of the records to which an exemption applies, but shall disclose the
307 remainder of the requested records and provide to the requesting citizen a written explanation as to why
308 these portions of the record are not available to the requesting citizen with the explanation making
309 specific reference to the applicable Code sections which make that portion of the requested records
310 exempt. Any reasonably segregatable portion of an official record shall be provided to any person
311 requesting the record after the deletion of the exempt portion.

312 If the public body determines that it is practically impossible to provide the requested records or to
313 determine whether they are available within the five-work-day period, the public body shall so inform
314 the requesting citizen and shall have an additional seven work days in which to provide one of the three
315 preceding responses.

316 Nothing in this section shall prohibit any public body from petitioning the appropriate court for
317 additional time to respond to a request for records when the request is for an extraordinary volume of
318 records and a response by the public body within the time required by this chapter will prevent the
319 public body from meeting its operational responsibilities. Before proceeding with this petition, however,
320 the public body shall make reasonable efforts to reach an agreement with the requester concerning the
321 production of the records requested.

322 The public body may make reasonable charges for the copying, search time and computer time
323 expended in the supplying of such records. The public body may also make a reasonable charge for
324 preparing documents produced from a geographic information system at the request of anyone other than
325 the owner of the land that is the subject of the request. However, such charges shall not exceed the
326 actual cost to the public body in supplying such records or documents, except that the public body may
327 charge, on a pro rata per acre basis, for the cost of creating topographical maps developed by the public
328 body, for such maps or portions thereof, which encompass a contiguous area greater than fifty acres.
329 Such charges for the supplying of requested records shall be estimated in advance at the request of the
330 citizen. The public body may require the advance payment of charges which are subject to advance
331 determination.

332 In any case where a public body determines in advance that search and copying charges for
333 producing the requested documents are likely to exceed \$200, the public body may, before continuing to
334 process the request, require the citizen requesting the information to agree to payment of an amount not
335 to exceed the advance determination by five percent. The period within which the public body must
336 respond under this section shall be tolled for the amount of time that elapses between notice of the
337 advance determination and the response of the citizen requesting the information.

338 Official records maintained by a public body on a computer or other electronic data processing
339 system which are available to the public under the provisions of this chapter shall be made reasonably
340 accessible to the public at reasonable cost. Beginning July 1, 1997, every public body of state
341 government shall compile, and annually update, an index of computer databases which contains at a
342 minimum those databases created by them on or after July 1, 1997. "Computer database" means a
343 structured collection of data or documents residing in a computer. Such index shall be an official record
344 and shall include, at a minimum, the following information with respect to each database listed therein:
345 a list of data fields, a description of the format or record layout, the date last updated, a list of any data
346 fields to which public access is restricted, a description of each format in which the database can be
347 copied or reproduced using the public body's computer facilities, and a schedule of fees for the
348 production of copies in each available form. The form, context, language, and guidelines for the indices
349 and the databases to be indexed shall be developed by the Director of the Department of Information
350 Technology Services in consultation with the State Librarian and the State Archivist. The public body
351 shall not be required to disclose its software security, including passwords.

352 Public bodies shall not be required to create or prepare a particular requested record if it does not
353 already exist. Public bodies may, but shall not be required to, abstract or summarize information from
354 official records or convert an official record available in one form into another form at the request of
355 the citizen. The public body shall make reasonable efforts to reach an agreement with the requester
356 concerning the production of the records requested.

357 Failure to make any response to a request for records shall be a violation of this chapter and deemed
358 a denial of the request.

359 The following records are excluded from the provisions of this chapter but may be disclosed by the
360 custodian in his discretion, except where such disclosure is prohibited by law:

361 Memoranda, correspondence, evidence and complaints related to criminal investigations; adult
362 arrestee photographs when necessary to avoid jeopardizing an investigation in felony cases until such
363 time as the release of such photograph will no longer jeopardize the investigation; reports submitted to
364 the state and local police, to investigators authorized pursuant to § 53.1-16 and to the campus police
365 departments of public institutions of higher education as established by Chapter 17 (§ 23-232 et seq.) of
366 Title 23 in confidence; portions of records of local government crime commissions that would identify
367 individuals providing information about crimes or criminal activities under a promise of anonymity;

Information in the custody of law-enforcement officials relative to the identity of any individual other than a juvenile who is arrested and charged, and the status of the charge or arrest, shall not be excluded from the provisions of this chapter.

Criminal incident information relating to felony offenses shall not be excluded from the provisions of this chapter; however, where the release of criminal incident information is likely to jeopardize an ongoing criminal investigation or the safety of an individual, cause a suspect to flee or evade detection, or result in the destruction of evidence, such information may be withheld until the above-referenced damage is no longer likely to occur from release of the information.

Where the person who is the subject of medical records is confined in a state or local correctional facility, the administrator or chief medical officer of such facility may assert such confined person's right of access to the medical records if the administrator or chief medical officer has reasonable cause to believe that such confined person has an infectious disease or other medical condition from which other persons so confined need to be protected. Medical records shall be reviewed only and shall not be copied by such administrator or chief medical officer. The information in the medical records of a person so confined shall continue to be confidential and shall not be disclosed to any person except the subject by the administrator or chief medical officer of the facility or except as provided by law.

For the purposes of this chapter such statistical summaries of incidents and statistical data concerning patient abuse as may be compiled by the Commissioner of the Department of Mental Health, Mental Retardation and Substance Abuse Services shall be open to inspection and releasable as provided in subsection A of this section. No such summaries or data shall include any patient-identifying information. Where the person who is the subject of scholastic or medical and mental records is under the age of eighteen, his right of access may be asserted only by his guardian or his parent, including a noncustodial parent, unless such parent's parental rights have been terminated or a court of competent jurisdiction has restricted or denied such access. In instances where the person who is the subject thereof is an emancipated minor or a student in a state-supported institution of higher education, such right of access may be asserted by the subject person.

This exclusion shall not apply to memoranda, studies or other papers held or requested by the mayor or other chief executive officer of any political subdivision which are specifically concerned with the evaluation of performance of the duties and functions of any locally elected official and were prepared after June 30, 1992, nor shall this exclusion apply to agenda packets prepared and distributed to public bodies for use at a meeting.

As used in this subdivision 9, "test or examination" shall include (i) any scoring key for any such test or examination and (ii) any other document which would jeopardize the security of such test or examination. Nothing contained in this subdivision 9 shall prohibit the release of test scores or results as provided by law, or limit access to individual records as is provided by law. However, the subject of such employment tests shall be entitled to review and inspect all documents relative to his performance on such employment tests.

When, in the reasonable opinion of such public body, any such test or examination no longer has any potential for future use, and the security of future tests or examinations will not be jeopardized, such test or examination shall be made available to the public. However, minimum competency tests administered to public school children shall be made available to the public contemporaneously with statewide release of the scores of those taking such tests, but in no event shall such tests be made available to the public later than six months after the administration of such tests.

Virginia Public Broadcasting Board.

§ 2.1-563.70. Declaration of public purpose; Board created.

A. It is hereby found and determined by the General Assembly that there exists in the Commonwealth a need to support and capitalize on the universal access of public broadcasting to: (i) enrich the lives of all citizens of the Commonwealth without regard to their geographic location or economic status by providing them with programs and services that educate, inform and enlighten; (ii) improve and enhance the educational opportunities available to children from pre-kindergarten through secondary

schools, adults, home educators, and students and personnel at colleges and universities of the Commonwealth; (iii) provide the citizens of the Commonwealth with comprehensive information on the activities of state government; (iv) maintain and improve the public broadcasting stations' infrastructures for distribution of broadcast and related services; (v) promote economic development through the wider availability of worker-training and job-skills enhancements; (vi) promote tourism through the widespread distribution of programming that recognizes and displays Virginia's historical, educational, recreational and cultural resources; and (vii) improve efficiency in state government through the use of public broadcasting production and distribution systems.

B. To achieve these public purposes, there is hereby created the Virginia Public Broadcasting Board under the direction and supervision of the Chief Information Officer of the Commonwealth. The exercise by the Board of the powers conferred by this article shall be deemed and held to be the performance of essential governmental functions.

§ 2.1-563.71. Board membership; chairman and vice chairman; duties.

A. The Board shall consist of fifteen members. The Governor shall appoint eleven members, one from each congressional district of the Commonwealth, each of whom shall be confirmed by the affirmative vote of a majority of those voting in each house of the General Assembly. Three of the appointees shall have expertise in at least one of the areas of education, tourism, telecommunications, and economic development, and two shall be participating members of different public broadcasting stations in the Commonwealth. The president of the State Board of Education and the chairmen of the State Council of Higher Education, the State Board of Community Colleges, and the Board of Trustees of the Virginia Museum of Fine Arts, or their designees, shall serve as Board members concurrent with their terms in office. No Board member shall be the chief executive officer or head of any state agency, a member of the General Assembly, or an officer, director, employee, or member of the board of directors of any public broadcasting station.

B. All other appointments shall be for four-year terms; however, the initial terms of the gubernatorial appointees shall be as follows: three for four-year terms, three for three-year terms, two for two-year terms, and three for one-year terms. No appointee shall be eligible to serve more than two successive four-year terms; however, a member appointed to an initial term may serve one additional four-year term.

C. Vacancies for unexpired terms shall be filled by the Governor in the same manner as the original appointment; after the expiration of such term, the appointee may serve one additional four-year term. If the General Assembly refuses or fails to confirm any appointment, such person shall not be eligible for reappointment.

D. The Governor shall designate a Board member to serve as chairman, who shall preside over meetings of the Board, communicate on behalf of the Board to the outside entities interested in public broadcasting, and perform additional duties as may be set by resolution of the Board. Board members may elect a vice-chairman from their membership and appoint a secretary who may or may not be a member of the Board. The Board shall meet at the call of its chairman. A majority of the Board members shall constitute a quorum.

E. Board members shall be reimbursed for the reasonable and necessary expenses incurred in performance of their duties. Such reimbursements and other expenses of the Board shall be paid from funds which the Department of Planning and Budget shall annually withhold from appropriations to public broadcasting stations in an amount sufficient to defray the estimated reasonable and necessary expenses of the Board.

§ 2.1-563.72. Powers of the Board.

The Board shall have all the powers necessary or convenient to carry out the purposes and provisions of this article, including, without limitation, to:

1. Receive, allocate, and dispense funds appropriated by the General Assembly and any funds received by the Board from other sources, subject to the approval of the Director of the Department of Planning and Budget;

2. Develop reasonable and fair formulas for allocating and distributing state funds and other funds of the Board to Virginia's public broadcasting stations consistent with the intent of such appropriations;

3. Apply for, accept, and receive grants of federal funds and funds from other public and private sources;

4. Adopt, administer, and apply standards and criteria by which the Board may permit television and radio stations to qualify as public broadcasting stations if those stations did not qualify for or receive Virginia community service grants or other instructional television service funds as of January 1, 1997, but otherwise qualify as such under the definition of a public broadcasting station in § 2.1-563.42. To avoid unnecessary duplication of public broadcasting services, the Board shall consider the: (i) adequacy of existing programming, coverage, and other public broadcasting services in the geographic area to be served and the extent to which those services would be duplicated by an additional public

1290 broadcasting station and (ii) sufficiency of funds administered by the Board to support existing or
1291 proposed public broadcasting stations;

1292 5. Coordinate such strategic planning by the public broadcasting stations as the Board deems
1293 appropriate and identify and communicate to the Governor and the General Assembly the funding and

1329 The accounts and records of the Board showing the receipt and disbursement of funds from whatever
1330 source derived shall be in such form as the Auditor of Public Accounts prescribes. The Auditor of
1331 Public Accounts, or his legally authorized representatives, shall annually examine the accounts and
1332 books of the Board. The Board shall submit an annual report to the Governor and General Assembly on
1333 or before November 1 of each year. Such report shall contain the audited annual financial statements of
1334 the Board for the year ending the preceding June 30. The annual report shall be distributed in
1335 accordance with the provisions of § 2.1-467.

§ 22.1-199.1. Programs designed to promote educational opportunities.

The General Assembly finds that Virginia educational research supports the conclusion that poor children are more at risk of educational failure than children from more affluent homes and that reduced pupil-teacher ratios and class sizes result in improved academic performance among young children; to this end, the General Assembly establishes a long-term goal of reducing pupil-teacher ratios and class sizes for grades K through 3 in those schools in the Commonwealth with high or moderate concentrations of at-risk students.

Effective July 1, 1996, and with such funds as are provided in the appropriation act for this purpose, there is hereby established the statewide voluntary pupil-teacher ratio and class size reduction program for the purpose of reaching the long-term goal of statewide voluntary pupil-teacher ratio and class size reductions for grades K through 3 in schools with high or moderate concentrations of at-risk students, consistent with the provisions first provided during the 1994-1995 school year.

In order to facilitate these primary grade ratio and class size reductions, the Department of Education shall calculate the state funding of these voluntary ratio and class size reductions based on the incremental cost of providing the lower class sizes according to the greater of the division average per-pupil cost of all divisions or the actual division per-pupil cost. Localities shall provide matching funds for these voluntary ratio and class size reductions based on the composite index of local ability to pay. School divisions shall notify the Department of Education of their intention to implement the reduced ratios and class sizes in one or more of their qualifying schools by August 1 of each year. By March 31 of each year, school divisions shall forward data substantiating that each participating school has a complying pupil-teacher ratio.

In developing the proposed 1996-1998 biennium budget for public education, the Board of Education shall include funding for these ratios and class sizes. Effective July 1, 1996, the ratios and class sizes shall be included in the annual budget for public education.

The General Assembly finds that educational technology is one of the most important components, along with highly skilled teachers, in ensuring the delivery of quality public school education throughout the Commonwealth. Further, the General Assembly notes that education technology can only be successful if teachers and administrators are provided adequate training and assistance. To this end, the following program is established. With such funds as are appropriated for this purpose, the Board of Education shall award to the several school divisions grants for expanded access to educational technology. Funding for educational technology training for instructional personnel shall be provided as set forth in the appropriation act, including funds for providing a technology resource assistant to serve every elementary school in this Commonwealth beginning on July 1, 1998. Any local school board accepting these funds to hire such technology resource assistants shall commit to providing the required matching funds, based on the composite index of local ability to pay. Each qualifying school board shall establish an individualized technology plan, which shall be approved by the Superintendent of Public Instruction, for integrating technology into the classroom and into schoolwide instructional programs. The grants shall be prioritized as follows:

In the 1994 biennium, the first priority for these funds shall be to automate the library media centers and provide network capabilities in Virginia's elementary, middle and high schools, or combination thereof, in order to ensure access to the statewide library and other information networks. If any

1782 elementary, middle or high school has already met this priority, the 1994 biennium grant shall be used
1783 to provide other educational technologies identified in the relevant division's approved technology plan,
1784 such as multimedia and telecomputing packages, integrated learning systems, laptop computer loan
1785 programs, vocational technology laboratories or other electronic techniques designed to enhance public
1786 education and to facilitate teacher training in and implementation of effective instructional technology.
1787 The Board shall also distribute, as provided in the appropriation act, funds to support the purchase of
1788 electronic reference materials for use in the statewide automated reference system.

1789 In the 1996 biennium, the first priority for funding shall be consistent with those components of the
1790 Board of Education's revised six-year technology plan which focus on (i) retrofitting and upgrading
1791 existing school buildings to efficiently use educational technology; (ii) providing (a) one network-ready
1792 multimedia microcomputer for each classroom, (b) a five-to-one ratio of pupils to network-ready
1793 microcomputers, (c) graphing calculators and relevant scientific probes/sensors as required by the
1794 Standards of Learning, and (d) training and professional development on available technologies and
1795 software to all levels and positions; and (iii) assisting school divisions in developing integrated voice,
1796 video, and data-connectivity to local, national and international resources. This funding may be used to
1797 implement a local school division's long-range technology plan, at the discretion of the relevant school
1798 board, if the local plan meets or exceeds the goals and standards of the Board's revised six-year
1799 technology plan and has been approved by the Superintendent of Public Instruction.

1800 The Departments of Education, ~~Information~~ Technology Services, and General Services shall
1801 coordinate master contracts for the purchase by local school boards of the aforementioned educational
1802 technologies and reference materials.

1803 Beginning on July 1, 1998, a technology replacement program shall be, with such funds as may be
1804 appropriated for this purpose, implemented to replace obsolete educational hardware and software. As
1805 provided in § 22.1-129 D, school boards may donate obsolete educational technology hardware and
1806 software which is being replaced. Any such donations shall be offered to other school divisions and to
1807 preschool programs in the Commonwealth.

1808 The General Assembly finds that effective prevention programs designed to assist children at risk of
1809 school failure and dropout are practical mechanisms for reducing violent and criminal activity and for
1810 ensuring that Virginia's children will reach adulthood with the skills necessary to succeed in the
1811 twenty-first century; to this end, the following program is hereby established. With such funds as are
1812 appropriated for this purpose, the General Assembly hereby establishes a grant program to be disbursed
1813 by the Department of Education to schools and community-based organizations to provide quality
1814 preschool programs for at-risk four-year-olds who are unserved by another such program. The grants
1815 shall be used to provide full-day and at least school-year programs for at-risk four-year-old children that
1816 include quality preschool education, health services, social services, parental involvement including
1817 activities to promote family literacy, and transportation. The Department of Education, in cooperation
1818 with such other state agencies which may coordinate child day care and early childhood programs, shall
1819 establish guidelines for quality preschool education and criteria for the service components, consistent
1820 with the findings of the November 1993 study by the Board of Education, the Department of Education,
1821 and the Council on Child Day Care and Early Childhood Programs. During the 1995-96 fiscal year, the
1822 Board of Education shall, with such funds as are appropriated for this purpose, distribute grants, based
1823 on an allocation formula providing the state share of the grant per child, as specified in the
1824 appropriation act, for thirty percent of the unserved at-risk four-year-olds in the Commonwealth pursuant
1825 to the funding provided in the appropriation act. During the 1996-97 fiscal year, grants shall be
1826 distributed, with such funds as are appropriated for this purpose, based on an allocation formula
1827 providing the state share of the grant per child, as specified in the appropriation act, for sixty percent of
1828 the unserved at-risk four-year-olds in the Commonwealth, such sixty percent to be calculated by adding
1829 services for thirty percent more of the unserved at-risk children to the thirty percent of unserved at-risk
1830 children in each locality provided funding in the appropriation act.

1831 Local school boards may elect to serve more than sixty percent of the at-risk four-year-olds and may
1832 use federal funds or local funds for this expansion or may seek funding through this grant program for
1833 such purposes. Grants may be awarded, if funds are available in excess of the funding for the sixty
1834 percent allocation, to expand services to at-risk four-year-olds beyond the sixty percent goal.

1835 In order for a locality to qualify for these grants, the local governing body shall commit to providing
1836 the required matching funds, based on the composite index of local ability to pay. Localities may use,
1837 for the purposes of meeting the local match, local expenditures for existing qualifying programs and
1838 shall also continue to pursue and coordinate other funding sources, including child care subsidies. Funds
1839 received through this program shall be used to supplement, not supplant, any funds currently provided
1840 for preschool programs within the locality.

1841 The General Assembly finds that local autonomy in making decisions on local educational needs and
1842 priorities results in effective grass-roots efforts to improve education in the Commonwealth's public
1843 schools only when coupled with sufficient state funding; to this end, the following block grant program

is hereby established. With such funds as are provided in the appropriation act, the Department of Education shall distribute block grants to localities to enable compliance with the Commonwealth's requirements for school divisions in effect on January 1, 1995. Therefore, for the purpose of such compliance, the block grant herein established shall consist of a sum equal to the amount appropriated in the appropriation act for the covered programs, including the at-risk add-on program; dropout prevention, specifically Project YES; Project Discovery; English as a second language programs, including programs for overage, nonschooled students; Advancement Via Individual Determination (AVID); the Homework Assistance Program; programs initiated under the Virginia Guaranteed Assistance Program, except that such funds shall not be used to pay any college expenses of participating students; Reading Recovery; and school/community health centers. Each school board may use any funds received through the block grant to implement the covered programs and other programs designed to save the Commonwealth's children from educational failure.
